Football and Manliness Thomas P. Oates, 2017-03-30 Women African Americans and gays have recently upended US culture with demands for inclusion and respect while economic changes have transformed work and

daily life for millions of Americans The national obsession with the National Football League provides a window on this dynamic period of change reshaping ideas about manliness to respond to new urgencies on and beyond the gridiron Thomas P Oates uses feminist theory to break down the dynamic cultural politics shaping and shaped by today s NFL As he shows the league s wildly popular product provides an arena for media producers to work out and recalibrate the anxieties contradictions and challenges that characterize contemporary masculinity Oates draws from a range of pop culture narratives to map the complex set of theories about gender and race and to reveal a league and fan base in flux Though longing for a past dominated by white masculinity the mediated NFL also subtly aligns with a new economic reality that demands it cope with the shifting relations of gender race sexuality and class Indeed pro football crafts new meanings of each by its canny mobilization of historic ideological processes

Class and Everyday Life Kirsteen Paton,2023-11-28 Exploring the issues of class through in depth studies of housing sport art music and politics in Britain Class and Everyday Life persuasively demonstrates the pervasive influence of class on everyday life and the need to centre a radical understanding of class within emancipatory political movements The need for a more expansive understanding of class is politically urgent There is a disconnect between descriptive and analytical approaches to class and the politics of class and realities around how class is lived Discourse has been shaped by top down frameworks of analysis and measurements which have stripped the study of class of its political radicalism This book makes the case for a sociology of class which is informed by a politics of class based upon using the everyday as the point of enquiry It presents a sociology of class from the bottom up which focuses on everyday life and the point at which class is made and remade In doing so it advocates for an attentiveness to class and everyday life through a conjunctural analysis Using an everyday lens this book examines how the shifting conjunctures manifest in everyday spaces in classed ways and how such changes are negotiated resisted and shape the working class subject and communities This is based upon an understanding of everyday classed experiences which identifies and challenges inequalities while also recognising value and hope This perspective aims to offer a recognition of both the opportunities and challenges of class as a way of developing a stronger more politicised understanding of class which takes solidarity and class community power seriously to resist inequality and develop emancipatory politics This urgent and impassioned book will be essential reading for students academics and activists with an interest in the lived experience of class in Britain today
