International Negotiation

Ho-Won Jeong, 2016-04-07. Negotiation has always been an important alternative to the use of force in managing international disputes. This textbook provides students with the insight and knowledge needed to evaluate how negotiation can produce effective conflict settlement, political change and international policy making. Students are guided through the processes by which actors make decisions, communicate, develop bargaining strategies and explore compatibilities between different positions while attempting to maximize their own interests. In examining the basic ingredients of negotiation, the book draws together major strands of negotiation theories and illustrates their relevance to particular negotiation contexts. Examples of well known international conflicts and illustrations of everyday situations lead students to understand how theory is utilized to resolve real world problems and how negotiation is applied to diverse world events. The textbook is accompanied by a rich suite of online resources including lecture notes, case studies, discussion questions and suggestions for further reading.

Jones, Brinkert Tricia S. Jones, Ross Brinkert, 2008. Recent research shows that between 25-85% of conflict disputants referred to mediation choose not to participate, i.e. they resist wanting to meet face to face. In the field of conflict resolution, conflict coaching is the only process that has emerged which allows resolution methods to work on a one-on-one basis. *Conflict Coaching: Conflict Management Strategies and Skills for the Individual* defines this growing area of conflict resolution and distinguishes conflict coaching as a stand-alone resolution technique. In a service society where human relationships are central to our professional as well as personal lives, individuals value one-on-one attention to obtain custom solutions for handling important interpersonal communication. Rooted in research and theory, the text is organized into three sections: Introducing Conflict Coaching, Conducting Conflict Coaching and Integrating Conflict Coaching, and offers a practical model for coaching. It is a useful volume for students and practitioners in a range of academic disciplines including communication, alternative dispute resolution, conflict resolution, business education, law, psychology, sociology and social work. The CD-ROM accompanying the book provides numerous resources for instructors, coaches and other interested readers.
