Global Marketing Strategy Bodo B. Schlegelmilch, 2022-02-16 This book has been written for experienced managers and students in postgraduate programs such as MBA or specialized master's programs. It looks at the various global marketing challenges from a strategic perspective and also addresses topics not usually found in international marketing texts such as aligning marketing strategies with global organizational structures and managing the relationship between national subsidiaries, regional headquarters and global headquarters as well as corporate social responsibility challenges and pertinent future trends that are likely to affect global business. An Introduction to Online Platforms and Their Role in the Digital Transformation OECD, 2019-05-13

This report contains detailed profiles of twelve of the world's leading platform companies and derives insights from those profiles about what platforms actually do, how they do it and why they succeed financially. Headlines That Matter Kavita Chandran, Saldene Lyte, 2025 Not every news announcement grabs a financial trader's attention, prompting them to initiate a buy or sell call. Glued to their screens every day, traders are alerted to important information by journalists who work with news agencies such as Reuters, Bloomberg, Associated Press and Dow Jones, to name a few. American wires or regional wire services such as Agence France Presse, AFP, Press Trust of India, PTI or Algemeen Nederlands Persbureau, ANP. The urgent news flashes come from journalists who have impeccable news judgement along with the ability to think and write at great speed. What is it that these journalists look for in company press releases, remarks by political leaders or comments by central bankers? How do they evaluate corporate scandals and communications on sensitive social and political issues? What about food recalls, labor disputes and supply chain problems? Why do markets react to such headlines and news updates? Using many recent examples of headlines that influenced the markets, two former Bloomberg headline writers reveal the workings and thought processes of an adrenaline-packed team which caters to those who deal with money matters within seconds, day in and day out. The insights in this book benefit students of both business journalism and finance as well as CEOs, corporate communications directors and wealth managers, investors and traders.
