

Ultimate Sleep Hacks

Put your phone down 2 hrs before bed. You'll thank us tomorrow, we promise.

Bust out the aromatherapy. And breathe in and out the zen vibes.

Use a weighted blanket. It's like getting tucked in with a giant hug.

Sleeping masks are equal parts fashionable and functionable.

Try a white noise machine or sleep meditation to knock out in an instant.

Turn the TV off. That next episode will be just as good in the morning.

Get in the nighttime flow with some restorative yoga.

Save the intense workouts for earlier in the day. That adrenaline rush won't help you sleep.

pain attention memory mood The Times How can the furniture in your home affect your wellbeing What colour clothing will help you play sport better And what simple trick will calm you after a tense day at work In this revelatory book pioneering and entertaining Oxford professor Charles Spence shows how our senses change how we think and feel and how by hacking them we can reduce stress become more productive and be happier We like to think of ourselves as rational beings and yet it is the scent of expensive face cream that removes wrinkles temporarily a room actually feels warmer if you use a warmer paint colour and the noise of the crowd really does affect the referee's decision Understanding how our senses interact can produce incredible results This is popular science at its unbelievable best Spence does for the senses what Marie Kondo does for homes Avery Gilbert author of What the Nose Knows Everything you need to know about how to cope with the hidden sensory overload of modern life engagingly told Robin Dunbar author of How Many Friends Does One Person Need

Happy at Any Cost Kirsten Grind, Katherine Sayre, 2023-03-14 From award winning Wall Street Journal reporters a startling portrait of one of our greatest tech visionaries Zappos CEO Tony Hsieh Robert Kolker author of Hidden Valley Road reporting on his short life untimely death and what that means for our pursuit of happiness Tony Hsieh CEO of Zappos Las Vegas developer and beloved entrepreneur was famous for spreading happiness He lived and breathed this philosophy instilling an ethos of joy at his company outlining his vision for a better workplace in his New York Times bestseller Delivering Happiness He promoted a workplace where bosses treated employees like family members where stress was replaced by playfulness and where hierarchies were replaced with equality and collaboration His outlook shaped how we work today Hsieh also aspired to build his own utopian cities pouring millions of dollars into real estate and small businesses first in downtown Las Vegas Nevada where Zappos is headquartered and then in Park City Utah He gave generously to his employees and close friends including throwing notorious Zappos parties and organizing gatherings at his home an Airstream trailer park When Hsieh died suddenly in late 2022 the news shook the business and tech world Wall Street Journal reporters Kirsten Grind and Katherine Sayre discovered Hsieh's obsession with happiness masked his darker struggles with addiction mental health and loneliness In the last year of his life he spiraled out of control cycling out of rehab and into the waiting arms of friends who enabled his worst behavior even as he bankrolled them from his billion dollar fortune Happy at Any Cost sheds light on one of our most creative yet vulnerable business leaders It's about our intense need to find happiness at all costs our misguided worship of entrepreneurs the stigmas still surrounding mental health and how the trappings of fame can mask all types of deeper problems In turn it reveals how we conceptualize success and define happiness in our modern age

Financial Hacking: Evaluate Risks, Price Derivatives, Structure Trades, And Build Your Intuition Quickly And Easily Philip Z Maymin, 2012-10-01 This book teaches financial engineering in an innovative way by providing tools and a point of view to quickly and easily solve real front office problems Projects and simulations are not just exercises in this book but its heart and soul You will not only learn how to do state of the art simulations and build

exotic derivatives valuation models you will also learn how to quickly make reasonable inferences based on incomplete information This book will give you the expertise to make significant progress in understanding brand new derivatives given only a preliminary term sheet thus making you extraordinarily valuable to banks brokerage houses trading floors and hedge funds Financial Hacking is not about long detailed mathematical proofs or brief summaries of conventional financial theories it is about engineering specific useable answers to imprecise but important questions It is an essential book both for students and for practitioners of financial engineering MBAs in finance learn case method and standard finance mainly by talking Mathematical finance students learn the elegance and beauty of formulas mainly by manipulating symbols But financial engineers need to learn how to build useful tools and the best way to do that is to actually build them in a test environment with only hypothetical profits or losses at stake That s what this book does It is like a trading desk sandbox that prepares graduate students or others looking to move closer to trading operations

How to Be Cross Eyed Jonathan

Roseland,2019-01-01 There s that moment when you meet a new person and you can tell that they are just a bit disoriented by your weirdness You feel that familiar little pang of embarrassment and shame because you know how weird you must look to them You re physically imperfect So am I I know that moment as well as you do But you don t have to be cross eyed or have a conspicuous physical imperfection to enjoy this book Really thriving requires an uncommon set of barely legal Biohacking tools social dynamics strategies from the fringes of polite society and rapid mindset transformation technologies which this lifehacking manifesto delves deeply into This book is especially for that one or two percent of the population who have a glaring physical defect Which I fall into I m cross eyed with Strabismus if you re reading this perhaps you are too There are certainly people out there with more conspicuous physical imperfections who have it worse than I do However the eyes are the window to the soul they really are a part of nearly every important human interaction Not having normal eyes has been a disadvantage that I ve needed to develop a specific set of skills and life strategies to overcome I was talking to my lovely fianc e about this book and she asked me if the purpose of the book was to help the self esteem of people with physical imperfections Not really This book is more about the lifehacks that I ve employed over the past 10 years strategies methods and tools that really work to help you overcome the challenge of a physical imperfection and thrive These things will likely improve your self esteem but they will also work if you have low self esteem or no self esteem or too much self esteem as I m sometimes accused of having Self esteem is not my focus My focus is on things that work This is not your typical self help book I ve had a pretty interesting life I ve seduced a politician s daughter in Medellin Colombia and I hung out with spies in Kyiv Ukraine I ve almost died underwater twice I participated in a bank robbery and I lost my virginity to a spy yes really From having sex in a brand new Maserati and getting in high speed car chases to being deported from South American countries and representing the US Presidential candidate Donald J Trump I ve found the happiness that I didn t give a damn about and realized my dream of becoming an adventuring philosopher I m not a theorist in the business of making

generalizations The tactics and tools presented here are for rigorous practitioners ethical hedonists and open minded self experimenters I may sound like quite the pompous pontificator but I ll offer no apologies because storytelling is the best way to impart the unconventional mindset that saved me from mediocrity and the biohacks that enabled me to defy my selfish genes If you re bored of the tired problem generalization platitude strategy formula that most self help books follow you ll enjoy this memoir of adventures failures and unexpected successes across three continents I ll share with you some powerful tools for transformation biohacking smart drugs flowstate red pill mindset and more with which I ve managed to pack several lifetimes worth of peak experiences into a single decade
