PRICING PROBLEMS

These films were produced in 1934. Critics were generally in good luck and wrote the current status as the first feature with color.

No, no, no! This is all wrong! Their beach ball should be \$499 less than the sweater, which is supposed to be \$600 cheaper than what is marked. The prices are priced way too high! It is only double the price of the sweater's sale price. Harry and the sales ladies are overcharging our customers, come on!

Scheduling Madness

Stores open all the crucial hours on Black Friday. Some even open for their big sale on Thanksgiving. Read the conversation below to figure out when each store opens and fill in the table with opening times below.

"It looks like we are going to have to shift our shopping after our Thanksgiving meal. Our guests are leaving at four pm, right when Old Navy opens, and Toys R Us opens one-hour later!"
 "Okay, but we need to be at Best Buy to get the great deal on that TV on-line later."
 "But what about the cheap tool-set on Target? They open at the same time as Best Buy. We can't be in two places at once!"
 "Well, I know that Lowe's has the same set for even cheaper, and they open a hour AFTER Target does. We will be able to get some sleep before we head there!"
 "Okay, two hours after Lowe's opens, we will head to Sandy's Club and check out their great deal on sneakers!"
 "Sounds good. But on hour after Sandy's opens, we need to be at Garden Mountain Quilts to see that new quilt I want!"

 to reform student populations are more diverse than ever resources are limited and teachers are expected to teach to high
 standards for all students While many reformers look for change at the state or district level the authors here argue that the
 most local contexts schools departments and communities matter the most to how well teachers perform in the classroom
 and how satisfied they are professionally Their findings based on one of the most extensive research projects ever done on
 secondary teaching show that departmental cultures play a crucial role in classroom settings and expectations In the same
 school for example social studies teachers described their students as apathetic and unwilling to work while English teachers
 described the same students as bright interesting and energetic With wide ranging implications for educational practice and
