Age-Friendly Cities and Communities in International Comparison Thibault Moutaert, Suzanne Garon, 2015-12-01. The supportive role of urban spaces in active aging is explored on a world scale in this unique resource using the WHO's Age-Friendly Cities and Communities model. Case studies from the U.S., Canada, Australia, Hong Kong, and elsewhere demonstrate how the model translates to fit diverse social, political, and economic realities across cultures and continents: ways age-friendly programs promote senior empowerment and how their value can be effectively assessed. Age-friendly criteria for communities are defined and critiqued while extensive empirical data describe challenges as they affect elders globally and how environmental support can help meet them. These chapters offer age-friendly cities as a corrective to the overemphasis on the medical aspects of elders' lives and should inspire new research practice and public policy. Included in the coverage: A critical review of the WHO Age-Friendly Cities Methodology and its implementation; Seniors' perspectives

on age friendly communities The implementation of age friendly cities in three districts of Argentina Age friendly New York City a case study Toward an age friendly European Union Age friendliness childhood and dementia toward generationally intelligent environments With its balance of attention to universal and culture specific concerns Age Friendly Cities and Communities in International Comparison will be of particular interest to sociologists gerontologists and policymakers Given the rapid adoption of the age friendly perspective following its development by the World Health Organization the critical assessment offered in this volume is especially welcome Professor Chris Phillipson University of Manchester Constructing Post-Colonial India Sanjay Srivastava,2005-09-27 An interdisciplinary and engaging book which looks at the nature of Indian society since Independence and unpacks what post colonialism means to Indian citizens Using the case study of the Doon School a famous boarding school for boys and one of the leading educational institutions in India the author argues that to be post colonial in India is to be modern rational secular and urban In placing post colonialism in this concrete social context and analysing how it is constructed the author renders a complex and often rather abstract subject accessible
