

Reading Comprehension

Read the passage and answer the questions below

A dam is a wall built across a river or a stream to control water . Dams are built to make a reservoir . A reservoir is a man - made lake in which water is stored and sent across the country in pipes so that people can use it for drinking , washing and cooking . Dams are also built to store water for irrigating fields in the dry season when there is no rain . In the past, dams were built to force water into narrow channels . Today very big dams are built to use the force of water to get electricity .

A) Answer the following questions :

1. When do we need water from Dams ?

.....

2. How can we get electricity from water ?

.....

B) Choose the correct answer :

3. Water is stored and sent across the country in

a) canals b) pipes c) cartoons

4. A dam is a wall builta river or stream .

a) above b) around c) under

Modern Approaches to Foreign Language Training George Haskell Brown, Alfred I. Fiks, 1967 The report presents detailed non evaluative descriptions of instructional methods used in a sample of outstanding language training centers Included are 19 different training programs which together represent a student age range from subteens to adults both intensive and non intensive courses military and civilian students and governmental as well as nongovernmental programs For each program surveyed

the report presents fairly detailed description of such features as training objectives methods of teaching phonology grammar and vocabulary language laboratory activities student evaluation procedures and faculty characteristics Of the language teaching programs 15 out of 19 were characterized by their respective officials as adhering to the audio lingual A L methods Two key features were shared by the training centers primary emphasis on aural comprehension and speaking skills and an inductive approach to grammar Author **Chicorel Index to Reading and Learning Disabilities, an Annotate**
