The Essentials of Special Education Research Andrew M. Markelz, Benjamin S. Riden, 2024-08-21 Researchers in special education have been developing a knowledge base of evidence based practices that improve the outcomes of students with disabilities Unfortunately filtering that knowledge into classrooms implemented by special education teachers has been a challenge In *The Essentials of Special Education Research* Andrew M Markelz and Benjamin S Riden directly address the persistent research to practice gap by systematically presenting the essential components of research that every special education teacher must know The first section investigates the foundations of research and why special education teachers should regularly read research articles It also examines the basic structure of research articles to demystify jargon and provide teachers confidence when reading scientific literature The second section explores various research methodologies that consumers of research must know Methodologies such as literature reviews

single case design quantitative qualitative and others are unpacked so that special education teachers know the critical components of these methodologies along with their limitations to become critical consumers of research The third section focuses on putting this knowledge into practice Using practical scenarios the authors demonstrate how a special education teacher can combat common classroom problems by locating and reading relevant research to gain information and implement best practices based on scientific evidence This step by step guide combines the knowledge and skills outlined in this book to truly become a scientific practitioner *Canadian Periodical Index* ,2000
