Actually Super Adi Alsaid, 2023-08-22 A globetrotting novel that takes a determined teen from Japan to Australia and to Argentina and Mexico on a quest to prove that humanity is more good than bad. From the author of *Let's Get Lost* and *Before Takeoff*. Isabel is having an existential crisis. She's three years into high school, and everything she's learned has only shaken her faith in humanity. Late one night, she finds herself drawn to a niche corner of the internet: a forum whose members believe firmly in one thing: that there are indeed people out in the world quietly performing impossible acts of heroism. You might even call them supers. No, not in the comic book sense; these are real people, just like each of us, but who happen to have a power or two. If Isabel can find them, she reasons, she might be able to prove to herself that humanity is more good than bad. So the day she turns 18, she sets off on a journey that will take her from Japan to Australia and from Argentina to Mexico, with many stops along the way. She longs to prove one: just one super exists to restore her hope for the future. Will she find what she's looking for? And how will she know when/if she does? **The Identity of the Architect** Laura Iloniemi, 2019-12-23 Today there are more tools for communication than ever before, yet very little in the way of reflection on how these are being used, and even less on what exactly is being conveyed. This issue of AD looks at how architecture is communicated from a cultural perspective. Do the identities of practices, or their business-driven branding and promotional efforts, resonate with the critical acclaim many architects seek? Has slick, image-led media coverage sold the profession short? How is it possible to convey the less visual and haptic qualities of architecture? Can architects be more creative in their communication efforts, making these joyous on their own terms as Le Corbusier did so memorably? Is there really a need to succumb to the world of corporate marketing processes and managerial business jargon? The issue explores notions of editing and curating work in an age of data deluge and discusses social media as a genuinely alternative space for communication, rather than for just repurposing and regurgitating information relayed. *The Identity of the Architect* encourages the promotion of practices as an integral extension of the very culture they hope to engender through their work.
