This staggering surge can overwhelm even the most prepared customer support teams as they struggle to manage a flood of repetitive questions, keep response times low and maintain high levels of customer satisfaction all at the same time. However, this surge also presents a critical opportunity to boost revenue and acquire new customers with over 87% of consumers shopping during Black Friday and 61 million people globally purchasing from Shopify-powered brands. Drawing from our experience supporting over 300,000 businesses worldwide, we understand the importance of a seamless customer experience, especially for ecommerce companies and SMBs. We've developed strategies that help businesses overcome customer service challenges during peak shopping times. In this ebook, we'll share practical tips and insights from industry experts to help you manage customer demands during these critical periods. Successful firms strategically manage and are more accurate in their assessment of large-scale risks. Doing so is increasingly challenging given the pace of change, whether financial, technological, regulatory, or environmental. Mastering Catastrophic Risk provides real-world practical insights into how large companies are responding to this new reality and develops a framework for smarter thinking about events that can damage a business. As leading authorities on risk management strategy and company leadership, Howard Kunreuther and Michael Useem take us on a groundbreaking tour of firms' decision-making process. They demonstrate how improving readiness for and resilience against future shocks is now an integral part of company strategy. Using the DISRUPT model they have developed, they highlight the seven primary Drivers of disruption: Interdependencies, increase exposure, Short-term focus results in limited vision, Regulations require change and constrain opportunities, Urbanization increases the costs of disasters, Probabilities of disasters have increased, and Transparency has enhanced public awareness of problems and impacts on firms' reputations. Some disruptions can be anticipated while others arrive without warning. Their onset stresses decision makers, impairs company operations, and may even put the enterprise at risk. The bottom line: business leaders and their governing boards face ever more challenging disruptions and must be ever more on
