Divine Programming Charlotte E. Howell, 2020 From the mid 90s to the present television drama with religious content has come to reflect the growing cultural divide between white middle America and concentrated urban elites As author Charlotte E Howell argues in this book by 2016 television narratives of white Christianity had become entirely disconnected from the religion they were meant to represent Programming labeled family friendly became a euphemism for white middlebrow America and developing audience niches became increasingly

significant to serial dramatic television Utilizing original case studies and interviews Divine Programming investigates the development writing producing marketing and positioning of key series including 7th Heaven Friday Night Lights Rectify Supernatural Jane the Virgin Daredevil and Preacher As this book shows there has historically been a deep ambivalence among television production cultures regarding religion and Christianity more specifically It illustrates how middle American television audiences lost significance within the Hollywood television industry and how this in turn has informed and continues to inform television programming on a larger scale In recent years upscale audience niches have aligned with the perceived tastes of affluent educated multicultural and importantly secular elites As a result the televised representation of white Christianity had to be othered and shifted into the unreality of fantastic genres to appeal to niche audiences To examine this effect Howell looks at religious representation through four approaches establishment distancing displacement and use and looks at series across a variety of genres and outlets in order to provide varied analyses of each theme Grey Area Vinny Troia, 2025-09-09 A compelling first hand account of the dark web from its underground ecosystem to the people responsible for committing data breaches and leaking data 21st century's most consequential data breaches the responses to those attacks and the impact of dark web data and intelligence gathering and can have in the defense and security of our nation In Grey Area veteran hacker and cybersecurity investigations expert Vinny Troia offers an unfiltered first person look into the evolving relationship between open source intelligence OSINT and the dark web data ecosystem Drawing from years of hands on experience in digital forensics dark web investigations and adversarial engagement Troia explores how publicly available and commercially available information PAI and CAI are rapidly becoming the backbone of modern intelligence operations and how a human intelligence network of known cyber criminals helped identify and stop one of the largest data breaches in known history This book examines the legal operational and ethical dimensions of collecting and exploiting data from the darkest corners of the internet including leaked databases breached credentials and hidden criminal networks It breaks down how to discover process validate and operationalize this data in real world contexts from attribution and threat actor profiling to national security use cases You'll explore the evolution of OSINT within the Department of Defense and the Intelligence Community through exclusive first hand accounts from senior officials who helped define its path You'll also learn how AI and automation tools are being used to validate data at scale detect disinformation and supercharge open source investigations The book also covers how data is stolen and what happens to it after the theft Through his direct account as Reddington Troia provides actual unedited conversations with the cyber criminals responsible for a hack targeting more than 160 companies including his own interactions leading to the hack the extortion negotiation and responses with each of the effected organizations and how the hackers were ultimately brought to justice From discussions of the legal grey areas of data collection ransom negotiations and a first hand perspectives of his interaction with well known hackers Grey Area is a compelling and honest account of the realities of the dark web data theft and ways in which the intelligence

community should be leveraging these methods to help strengthen our national security Inside the book Blow by blow accounts of one of the largest data breaches in recorded history Interviews and commentary from high level officials at the CIA ODNI DIA and DOD Informed insightful commentary on how cybersecurity professionals are using dark web open source intelligence to strengthen national security and our country s defenses against hackers and foreign adversaries Revealing interviews with experienced hackers who explain a variety of approaches philosophies and strategies for combatting and recovering from data breaches Grey Area is essential reading for cybersecurity professionals intelligence analysts investigators and policy leaders navigating the complex intersection of dark web data national security and open source intelligence Through real world case studies and insider accounts it delivers actionable insight into the future of data driven investigations threat attribution and the expanding role of OSINT in modern intelligence operations *Music in Orbit* Brian Fauteux,2025-03-11 Years before the advent of music streaming Sirius and XM established satellite radio services that attracted paying subscribers through their ever expanding lineup of niche music channels and exclusive celebrity hosted programming Music in Orbit is the first book to explore how satellite radio bridges legacy broadcast music radio and streaming platforms serving as both precursor and integral player in today s streaming media environment Arguing for the ongoing significance of radio in the digital age and the pernicious effects of monopoly power on the vibrancy of contemporary music industries Music in Orbit offers essential context for the serious problems now facing working musicians music consumers and music communities Women and Popular Culture in Canada Laine Zisman Newman,2020-05-21 The first book of its kind this volume explores women and non binary people in popular culture in Canada with a focus on intersectional analysis of settler colonialism race white privilege ability and queer representations and experiences in diverse media The chapters include discussions of film television videogames music and performance as well as political events journalism social media fandom and activism Throughout this collection readers are encouraged to think carefully about the role women play in the cultural landscape in Canada as active viewers creators and participants Covering a wide range of topics from historical perspectives to recent events media and technologies this collection acts as an introduction an archive and a continuing commitment to lifting the voices and stories of women and popular culture in Canada This book is a must read for gender studies and media studies courses that focus on popular culture Canadian feminism and Canadian media FEATURES includes questions for critical thought that stimulate discussion focuses on intersections of race gender ability and sexuality provides contemporary Canadian content from an interdisciplinary and intersectional lens **Authenticating Whiteness** Rachel E. Dubrofsky,2022-11-29 In Authenticating Whiteness Karens Selfies and Pop Stars Rachel E Dubrofsky explores the idea that popular media implicitly portrays whiteness as credible trustworthy familiar and honest and that this portrayal is normalized and ubiquitous Whether on television film social media or in the news white people are constructed as believable and unrehearsed from the way they talk to how they look and act Dubrofsky argues that this way of making

white people appear authentic is a strategy of whiteness requiring attentiveness to the context of white supremacy in which the presentations unfold The volume details how ideas about what is natural good and wholesome are reified in media showing how these values are implicitly racialized Additionally the project details how white women are presented as particularly authentic when they seem to lose agency by expressing affect through emotional and bodily displays The chapters examine a range of popular media newspaper articles about Donald J Trump a selfie taken at Auschwitz music videos by Miley Cyrus the television series UnREAL the infamous video of Amy Cooper calling the police on an innocent Black man and the documentary Miss Americana pinpointing patterns that cut across media to explore the implications for the larger culture in which they exist At its heart the book asks Who gets to be authentic And what are the implications
