assault on officials is not unheard of in today's football. The increased demand for perfection has invited technology into officiating. Paradoxically, the tools designed to cure mistakes have led to unintended consequences that have made the job even more daunting. Fans expect officials' eyesight to match the slow motion, high definition images television affords. And with increasing stress on player safety, the burden to make the game safer has been added to those already borne by the profession. Underappreciated for their skill and dedication, the dynamics impacting the work and perceptions of it are leading to high attrition. This trend is troubling for the game's future. In *A Tough Job Made Harder*, Richard Lister, having consulted such preeminent officiating voices as Mike Pereira, Jerry Markbreit, Bill Carollo, Dean Blandino, and Terry McAulay, looks at the demands on football officials as well as what makes the work so rewarding to those who embark on it. Despite the proclivity for fans to criticize and lay blame on officiating, those who undertake it do so with immense pride and professionalism. In addition to *A Tough Job Made Harder*, Lister has written *The Third Team: NFL Officials, Their Lives, Their Stories*, the only third person perspective on NFL game officials. He also collaborated with renowned NFL offensive line coach Howard Mudd to write *The View From the O-Line*, an oral history of Mudd's career intertwined with those of twenty NFL offensive linemen whose career arcs led them to play football's most essential and underappreciated position. **Mad Seasons** Karra

Porter, 2006-01-01 As the popularity of women's basketball burgeons, Karra Porter reminds us in *Mad Seasons* that today's Women's National Basketball Association or WNBA had its origins in a ragtag league twenty years earlier. Porter tells the story of the Women's Professional Basketball League (WBL), which pioneered a new era of women's sports. Formed in 1978, the league included the not-so-storied Dallas Diamonds, Chicago Hustle, and Minnesota Fillies. Porter's book takes us into the heart of the WBL as teams struggled with nervous sponsors, an uncertain fan base, and indifferent sportswriters. Despite bouncing paychecks, having to sleep on floors, and being stranded on road games, the players endured and thrived. Karra Porter brings to life the pioneers of the WBL: Machine Gun Molly Bolin, who set lasting scoring records, then faced an historic custody battle because of her basketball career; Connie Kunzmann, a popular player whose murder rocked the league; Liz Silcott, whose remarkable talents masked deeper problems off the court; Ann Meyers, who went from an NBA tryout to the league she had rebuffed; Nancy Lieberman, whose flashy play and marketing savvy were unlike anything the women's game had ever seen. A story of hardship and sacrifice but also of dedication and love for the game, *Mad Seasons* brings the WBL back to life and shows in colorful detail how this short-lived but pioneering league ignited the imagination of a new generation of female athletes and fans. Arthroscopy and Sport Injuries Piero Volpi, 2016-01-01 This book describes the

current applications of arthroscopy in a very wide range of sports injuries involving among other sites the hip, knee, ankle, shoulder, elbow, and wrist. For each condition, mechanisms of injury are explained and the role of arthroscopy in diagnosis and treatment is described. Relevant information is also provided on the epidemiology and mechanisms of injury in specific sports and on indications for treatment and rehabilitation. The book fully reflects the recent advances that have taken place in

arthroscopy permitting more accurate assessment and more successful management of post traumatic pathologies  
Furthermore it acknowledges that as a result of the increasing use of new technologies and biomaterials there is now  
particular interest in techniques that promote biological healing of articular lesions and permit complete functional recovery  
The authors are leading specialists in the field who have aimed to provide practitioners with the clear guidance that they  
require on the evaluation and treatment of injuries incurred during sporting activity      *FCC Record* United States. Federal
