Sign Talk: A Universal Signal Code, Without Appara, Hunting, and Daily Life Ernest Thompson Seaton,2016-08-06 In offering this book to the public after having had the manuscript actually on my desk for more than nine years let me say frankly that no one realizes better than myself now the magnitude of the subject and the many faults of my attempt to handle it My attention was first directed to the Sign Language in 1882 when I went to live in Western Manitoba There I found it used among the various Indian tribes as a common language whenever they were unable to understand each other s speech In later years I found it a daily necessity when traveling among the natives of New Mexico and Montana and in 1897 while living among the Crow Indians at their agency near Fort Custer I met White Swan who had served under General George A Custer as a Scout He had been sent across country with a message to Major Reno so escaped the fatal battle but fell in with a party of Sioux by whom he was severely wounded clubbed on the head and left for dead He recovered and escaped but ever after was deaf and practically

dumb However sign talk was familiar to his people and he was at little disadvantage in daytime Always skilled in the gesture code he now became very expert I was glad indeed to be his pupil and thus in 1897 began seriously to study the Sign Language In 1900 I included a chapter on Sign Language in my projected Woodcraft Dictionary and began by collecting all the literature There was much more than I expected for almost all early travellers in our Western Country have had something to say about this lingua franca of the Plains As the material continued to accumulate the chapter grew into a Dictionary and the work of course turned out manifold greater than was expected The Deaf our School children and various European nations as well as the Indians had large sign vocabularies needing consideration
