The Economics of the Popular Music Industry Christie Byun,2024-04-29 This book uses economic theory to explain how consumers and producers have responded to major changes in the music industry Byun examines the important role of technology in changing its structure particularly as new methods of creating and accessing music prove to be a double edged sword for creators and producers This second edition includes new information about concert attendance and live performance in the COVID era and what followed as well as the resultant economic impacts on the industry Throughout the book Byun questions how the business of music affects creativity and the extent to which this impacts the creative output of the individual artist Chapters also address copyright enforcement and online piracy This is an approachable resource for economists interested in the music industry as well as business and music majors studying the ways in which technology can impact a creative process

The Autonomous Revolution William H. Davidow,Michael S. Malone,2020-02-18 The bestselling authors of The Virtual Corporation describe how the rise of AI and virtual environments are ushering in an epic cultural transformation We are at the dawn of the Autonomous Revolution a

turning point in human history as decisive as the Agricultural and Industrial Revolutions More and more AI based machines are replacing human beings and online environments are gathering our data and using it to manipulate us This loss of human autonomy amounts to nothing less than a societal phase change a fundamental paradigm shift The same institutions will remain schools banks churches and corporations but they will radically change form obey new rules and use new tools William H Davidow and Michael S Malone go deeply into the enormous implications of these developments They show why increases in productivity no longer translate into increases in the GDP and how zero cost one to many communications have been turned into tools for cybercrime and propaganda Many of the book s recommendations such as using taxes to control irresponsible internet behavior and enabling people to put their data into what are essentially virtual personal information safety deposit boxes are bold and visionary but we must figure out how we will deal with these emerging challenges now before the Autonomous Revolution overcomes us Lots of books talk about what s happening This book talks about the why behind the what It will transform your view of the future Geoffrey Moore bestselling author of Crossing the Chasm A provocative work combining historical inquiry present day technology crises and possible future solutions Library Journal

Surveillance State Josh Chin, Liza Lin, 2022-09-06 Where is the line between digital utopia and digital police state Surveillance State tells the gripping startling and detailed story of how China's Communist Party is building a new kind of political control shaping the will of the people through the sophisticated and often brutal harnessing of data It is a story born in Silicon Valley and America's War on Terror and now playing out in alarming ways on China's remote Central Asian frontier As ethnic minorities in a border region strain against Party control China's leaders have built a dystopian police state that keeps millions under the constant gaze of security forces armed with AI But across the country in the city of Hangzhou the government is weaving a digital utopia where technology helps optimize everything from traffic patterns to food safety to emergency response Award winning journalists Josh Chin and Liza Lin take readers on a journey through the new world China is building within its borders and beyond Telling harrowing stories of the people and families affected by the Party's ambitions Surveillance State reveals a future that is already underway a new society engineered around the power of digital surveillance

Strategic Airline Retailing and Solutions Nawal K. Taneja, 2023-11-07 While airlines have been looking into the next generation of retailing practices for several years developments since the beginning of 2020 have accelerated the need to take retailing to a new paradigm A singular focus now is the ever changing demands of the current and next generation of customers and employees and managing their values Examples of customer needs include a mobile first approach rich content augmented and personalized end to end services with seamless consistent and contextualized experiences While these concepts of retailing are not new the challenge has been in bringing them to reality due to a the constraints of legacy systems and processes while transitioning to next generation retailing systems b the inaccessibility of real time data coming from a wide variety of sources such as online shopping social media and operations c the inability to monitor real time behavior of customers and employees d the lack of effective collaboration and cooperation within the travel ecosystem and e the increasing lack of trust on the part of customers This book provides a framework and technologies to convert retailing concepts from shopping to fulfillment into reality by a renovating an airline's core and ancillary products b progressing faster on digital and organizational transformation journeys to make better data based decisions about retailing c getting better at managing customer value by

knowing who the customers are d empowering supporting and listening to employees to meet their expectations e asking the right questions to solve complex retailing problems relating to customers competitors and stakeholders and f questioning common held beliefs about the airline business This book is indispensable for all airline executives and senior managers as well as airline and airport commercial managers It will also be enormously beneficial for retailers dealing with airlines and airports
