Scholarships Review Returns:

Reviews of National Policies for Education Chile's International Scholarship Programme OECD, The World Bank, 2010-09-02 This report reviews Chile's scholarship abroad scheme and provides an overview of best practices for scholarship programmes at the international level. In addition, it analyses the design and institutional framework of the Chilean programme and recommends ways to maintain and improve the scheme. *Journal of Community Engagement and Scholarship*, Vol. 2 No. 1 Roslyn C Richardson, 2009-11-15 The Journal of Community Engagement and Scholarship JCES is a peer-reviewed international journal through which faculty staff students and community partners disseminate scholarly works. JCES integrates teaching research and community engagement in all disciplines addressing critical problems identified through a community participatory process. **Scholarship, Money, and Prose** Michael Chibnik, 2020-05-15 An illuminating guide to publishing a scholarly journal written by a former editor in chief American Anthropologist is the flagship journal of the American Anthropological Association published quarterly reaching more than 12 000 readers with each issue and representing four distinct subfields. The journal publishes articles that add to integrate synthesize and interpret anthropological knowledge commentaries and essays on issues of importance to the discipline and reviews of books films sound recordings and exhibits. From 2012 to 2016 Michael Chibnik was editor in chief of American Anthropologist. In *Scholarship Money and Prose* he writes a candid account of the complex and challenging work entailed in its production. Providing detailed ethnographic and historical descriptions of the operations of a major journal and behind the scenes anecdotes of his experiences Chibnik makes transparent the work of an editor in chief. He reveals how he assembled diverse materials assessed contradictory peer reviews of manuscripts submitted for publication and collaborated with authors to improve the legibility and clarity of their articles. He also examines controversies that emerged from his columns on open access and biological anthropology and the inclusion of politically charged material in the journal. *Scholarship Money and Prose* sheds light on two aspects of successful editing that are common to academic journals whatever their subject matter. The first task is to strike a balance among different theoretical perspectives and topical specialties. This pressure is particularly salient in a field like anthropology in which scholars differ greatly in the extent to which they adopt a scientific or humanistic perspective. Second editors must attend carefully to the need to keep costs down and revenues up in an economic environment in which libraries are cutting subscriptions and publishers are considering the future sustainability of journals. Relevant to a wide range of disciplines *Scholarship Money and Prose* serves as a window onto the past present and future of scholarly publishing.
