An International Comparison of Science Teaching and Learning. Further Results from PISA 2006 Mareike Kobarg, Manfred Prenzel, Tina Seidel, 2011 The OECD Programme for International Student Assessment PISA assesses the competencies of 15 year old students around the world In 2006 the PISA report focused on the science competencies 15 year old students developed The report does not reflect a systematic consideration of science learning environments in schools and their relationship to cognitive and motivational outcomes in terms of scientific literacy However in all investigated countries schools are where young people become familiar with science over an extended period of time Hence this book aims to provide detailed information on science teaching and learning in schools in the OECD countries Data from the PISA 2006 school principals and students questionnaires is used for the description of science teaching and learning First the context of science teaching in schools is described to provide a background for the analyses that follow Then the book draws a detailed picture of different components of science teaching relevant for student learning In addition international patterns of science teaching and learning are investigated The investigation focuses on the teaching of scientific enquiry This focus is chosen because the process of scientific enquiry models the way in which researchers think and it provides students with ample opportunities to develop science literacy Further investigations include the effects of different patterns of science teaching on student literacy The book concludes with implications for policy and practice

Innovation Systems and Capabilities in Developing Regions Willie Siyanbola,Olumuyiwa Olamade,2016-05-23 In today s knowledge driven world innovation and innovation systems have become key policy issues However the extent of knowledge that is available on these concepts in less developed countries is still relatively low Much of what we know about innovation theory and systems has come from the developed countries and reflects their world view This apparent knowledge deficit has major implications for less developed countries Innovation Systems and Capabilities in Developing Regions adds to the growing body of knowledge on developing countries The theoretical and empirical case studies presented here advance the notion that while developing countries may not engage in frontier research a critical knowledge base upon which these countries compete for global markets is emerging There is evidence that state and non state actors are increasingly emphasising policies that sit within the framework of national innovation systems This book illuminates this shift in policy competence at national levels The contributions in this volume highlight the need for thorough understanding of the role of diffusion based innovation linked to technology transfer and acquisition They also provide

empirical evidence on the drivers dynamics and impact of such innovation in developing economies and the constraints that apply Contributors also document the application of the innovation system approach in developing countries as well as the build up and diffusion of technological capabilities within innovation systems Academics higher level students policy makers and practitioners involved with innovation and the economics of technical change particularly in developing countries will find this a valuable book Handbook of Service Experience Per Kristensson,Lars Witell,Mohamed Zaki,2025-02-12 This prescient Handbook adopts an overarching perspective on service experiences in business contexts Incorporating up to date research and empirical case studies chapters focus on customer experience design innovation and management in the digital era *Encyclopedia of Digital Agricultural Technologies* Qin Zhang,2023-10-11 Digital agriculture is an emerging concept of modern farming that refers to managing farms using modern Engineering Information and Communication Technologies EICT aiming at increasing the overall efficiency of agricultural production improving the quantity and quality of products and optimizing the human labor required and natural resource consumption in operations This encyclopedia is designed to collect the summaries of knowledge on as many as subjects or aspects relevant to ECIT for digital agriculture present such knowledge in entries and arrange them alphabetically by articles titles Springer Major Reference Works platform offers Live Update capability Our reference work takes full advantage of this feature which allows for continuous improvement or revision of published content electronically The Editorial Board Dr Irwin R Donis Gonzalez University of California Davis Dept Biological and Agricultural Engineering Davis USA Section Postharvest Technologies Prof Paul Heinemann Pennsylvania State University Department Head of Agricultural and Biological Engineering PA USA Section Technologies for Crop Production Prof Manoj Karkee Washington State University Center for Precision and Automated Agricultural Systems Washington USA Section Robotics and Automation Technologies Prof Minzan Li China Agricultural University Beijing China Section Precision Agricultural Technologies Prof Dikai Liu University of Technology Sydney UTS Faculty of Engineering Information Technologies Broadway NSW Australia Section AI Information and Communication Technologies Prof Tomas Norton University of Leuven Dept of Biosystems Heverlee Leuven Belgium Section Technologies for Animal and Aquatic Production Dr Manuela Zude Sasse Leibniz Institute for Agricultural Engineering and Bioeconomy ATB Precision Horticulture Potsdam Germany Section Engineering and Mechanization Technologies Contemporary Issues in Global Medicine and Moving Toward International Healthcare Equity Comninellis, Nick,Waldman, Steven D.,2022-06-24 The COVID 19 pandemic is only the latest prompt about the importance of international health and its broad influence upon social wellbeing The COVID 19 pandemic has highlighted the need for an informed and coordinated effort to achieve international healthcare equity Leaders in international health must be conversant in its issues Contemporary Issues in Global Medicine and Moving Toward International Healthcare Equity provides an understanding of contemporary issues in international medicine It explores the impact of civil unrest on population health and provides practical strategies for providing clinical
