Inequality and Inclusive Growth in Rich Countries Brian Nolan,2018-06-03 Rising inequality in income and wealth across the OECD has been widely recognised and identified as a major concern Inequality and Inclusive Growth in Rich Countries links this phenomenon with stagnation in wages and incomes for ordinary working households in order to address the challenge of promoting growth and prosperity The concentration of wealth at the top of society is now seen as a threat to social and political stability Inequality and Inclusive Growth in Rich Countries aims to identify what structures and policies are associated with success or failure in limiting the rise in inequality and promoting income growth for those in the middle and lower reaches of the income distribution It analyses the varying experiences of ten rich countries over recent decades in depth revealing that there are indeed responses that governments and societies can adopt and that stagnation and rising inequality do not have to be accepted but can be combatted given the political will and capacity

The Politics of Income Taxation Steffen Ganghof,2024-10-31 Marginal income tax rates in advanced industrial

countries have fallen dramatically since the mid 1980s but levels and progressivity of income taxation continue to differ strongly across countries This study offers a new perspective on both observations It blends theoretical inquiry with focused quantitative analysis and in depth investigation of seven countries Germany Australia and New Zealand as well as Denmark Finland Norway and Sweden The Politics of Income Taxation highlights the equity efficiency tradeoffs that structure the politics of income taxation and analyses how income taxes are embedded in broader tax systems It explains the limited but enduring importance of political parties and democratic institutions Finally the study paints a nuanced picture of the role of globalisation and thus sheds light on the pros and cons of tax coordination at European and international levels
