Reading Randomised Controlled Trials Robert Savage, Amy Fox, Anneka Dawson, Helen Gray, Clare Huxley, 2025-03-03 In early 2021/22 the Flexible Phonics reading intervention a large scale randomised controlled trial took place in 118 schools in England and involved nearly 3 000 children This study aimed to provide valuable insights into the success of largely school based education trials The Flexible Phonics trial proved to be not only an important experiment in improving children s literacy but a case study in which the methodology of single randomised controlled trials in education can be considered Reading Randomised Controlled Trials investigates the complexities of conducting randomised controlled trials in the field of education and how they can be seen as a cultural activity The book emphasises the human operations decision making and actions that drive such trials which are often overlooked in published reports Through the case study of Flexible Phonics the book highlights the key differences between scaled educational trials and other types of trials such as pharmaceutical trials The additional focus on early childhood literacy is of significant educational importance particularly in the context of UK school partial closures in 2020 and 2021 during the Covid 19 pandemic Reading Randomised Controlled Trials is ultimately a unique resource on the implementation of randomised controlled trials in authentic school contexts and for the sustained improvement of practice in education

Best Practices in Literacy Instruction, Third Edition Linda B. Gambrell, Lesley Mandel Morrow, Michael Pressley, 2007 Now in a thoroughly revised and expanded third edition this evidence based book distills the latest knowledge about literacy teaching and learning into clear strategies for helping all children succeed Within a comprehensive conceptual

framework the field's leading authorities provide eminently practical recommendations to guide instructional decision making. The third edition has been fully updated with current research findings, policy issues, and program innovations. It offers significantly revised coverage of assessment, motivation, approaches to integrating different kinds of texts and multimedia resources, and adolescent literacy. New chapters address working with English language learners and supporting teachers' professional development. Also featured is a new concluding commentary by Michael Pressley.

Great Habits, Great Readers Paul Bambrick-Santoyo, Aja Settles, Juliana Worrell, 2013-06-10. A book that brings the habits of reading to life. Great readers are not made by genetics or destiny but by the habits they build; habits that are intentionally built by their teachers. The early formal years of education are the key to reversing the reading gap and setting up children for success. But K-4 education seems to widen the gap between stronger and weaker readers; not close it. Today the Common Core further increases the pressure to reach high levels of rigor. What can be done? This book includes the strategies, systems, and lessons from the top classrooms that bring the habits of reading to life, creating countless quality opportunities for students to take one of the most complex skills we as people can know and to perform it fluently and easily. Offers clear teaching strategies for teaching reading to all students, no matter what level. Includes more than 40 video examples from real classrooms. Written by Paul Bambrick-Santoyo, bestselling author of *Driven by Data* and *Leverage Leadership*. *Great Habits, Great Readers* puts the focus on learning habits: reading habits, guided reading, and independent reading. NOTE: Content video and other supplementary materials are not included as part of the e-book file but are available for download after purchase.

Primary English: Extending Knowledge in Practice David Wray, Jane Medwell, 2008-03-05. Still the biggest concern for many on initial teacher training courses is the acquisition of subject knowledge and the ability to translate that into effective teaching. This book addresses this by building on the core subject knowledge covered in the *Achieving QTS* series and relating it to classroom practice. It supports trainees in extending and deepening their knowledge of English and demonstrating how to apply it to planning and implementing lessons. Practical and up-to-date teaching examples are used to clearly contextualize subject knowledge. A clear focus on classroom practice helps trainees to build confidence and develop their own teaching strategies.

How Communities Build Stronger Schools A. Dodd, J. Konzal, 2016-03-05. If it takes a village to raise a child, Anne Wescott Dodd and Jean L. Konzal feel that it takes a community to make a school. Not content with the idea of a school being contained within four walls and existing only for a few hours every day, Dodd and Konzal know that a school which looks after the complete child exists far beyond its four walls and for the whole 24 hours in each day. They present a radical democratic vision of the public school where everyone, not just students, teachers, and parents, plays a part in shaping our children and consequently our future.
