Mastering Apple HomePod Adidas Wilson , The new device HomePod offers an easy and amazing way for Apple users to enjoy AirPlay Apple Music and control their HomeKit devices from anywhere HomePod was not created to be a competitor to Google Home or Amazon Echo just as the MacBook Air was not designed to compete against the netbook Of course they do share a number of characteristics For instance the HomePod smart speaker can be voice controlled and the MacBook Air is compact and lightweight However HomePod is just a 350 home assistant much like the MacBook was a 200 laptop computer The Fire Phone by Amazon was not much of a hit Alexa therefore had to sell a lot so that Prime could stick into more people's lives This was a success thanks to the price to move Echo Google on the other hand made a brilliant decision to follow in the footsteps because it has to satisfy its insatiable data thirst When it comes to HomePod something was a little different The AirPods were designed to help you enjoy your favorite music on the go while HomePod was designed to help you enjoy your favorite music in a convenient way in your home AirPods lacked wires and sufficient surface area for traditional buttons Because of this the Siri voice control was the only way to interact with the gadget you have to be near the device The Ultimate HomePod User Guide [100 Top Tips - Create Your Smart Home to Stay Safe and Save Money](#) Nick Vandome,2020-03-31 Homes that contain devices that can be controlled by smart speakers voice commands and apps are becoming a reality for an increasing number of people What was once the stuff of science fiction is now firmly established as part of the real world and is easily accessible for anyone who wants to add an exciting new dimension to their home 100 Top Tips Create Your Smart Home to Stay Safe and Save Money contains tips covering all aspects of setting up and using smart home devices securely These include Setting up your home so that it is ready to be transformed into a smart home Ensuring that your home is flexible enough so that you have alternatives if smart devices do not work properly Using smart speakers digital voice assistants to create a digital companion in your home Linking smart speakers to your smart home devices so that they can communicate with each other Deploying smart lighting to take the ultimate control over the lighting systems in your home Installing smart heating to control your central heating and save money Making your home more secure with a range of smart security devices Cutting down the time spent on domestic
