Romance and Rights Alex Lubin, 2009-09-18

Romance and Rights The Politics of Interracial Intimacy 1945-1954 studies the meaning of interracial romance, love and sex in the ten years after World War II. How was interracial romance treated in popular culture by civil rights leaders, African American soldiers and white segregationists? Previous studies focus on the period beginning in 1967 when the Supreme Court overturned the last state anti-miscegenation law, *Loving v. Virginia*. Lubin's study however suggests that we cannot fully understand contemporary debates about hybridity or mixed race identity without first comprehending how WWII changed the terrain. The book focuses on the years immediately after the war when ideologies of race, gender and sexuality were being reformulated and solidified in both the academy and the public. Lubin shows that interracial romance, particularly between blacks and whites, was a testing ground for both the general American public and the American government. The government wanted interracial relationships to be treated primarily as private affairs to keep attention off contradictions between its outward aura of cultural freedom and the realities of Jim Crow politics and anti-miscegenation laws. Activists however wanted interracial intimacy treated as a public act, one that could be used symbolically to promote equal rights and expanded opportunities. These contradictory impulses helped shape our current perceptions about interracial romances and their broader significance in American culture. *Romance and Rights* ends in 1954, the year of the *Brown v. Board of Education* decision, before the civil rights movement became well organized. By closely examining postwar popular culture, African American literature, NAACP manuscripts, miscegenation laws and segregationist protest letters among other resources, the author analyzes postwar attitudes towards interracial romance, showing how complex and often contradictory those attitudes could be.

Codes and Contradictions Jeanne Drysdale Weiler, 2012-02-01

This book examines the variations in the constitution of female gender in a group of young working class women of African American, Latina, U.S. Puerto Rican and white European backgrounds who are enrolled in an alternative high school for students at risk of academic failure. gender identity among various racial or ethnic backgrounds can be very dissimilar It also illustrates the enormous power of schools to re orient young women who have previous experiences of academic failure to view education as crucial to attaining their future goals
