Determining the College Football Playoff: Weighted Wins, A Better Approach Ray D. Theis,Mark G. Terwilliger,2021-09-21 In this book we explore the history of college football and in particular the mythical college championship from 1869 to the present day For several years different media outlets took it upon themselves to declare a national championship which led to nothing short of confusion In one year four different teams were named champion This chaotic situation and accompanying controversy ultimately led to the creation of the Bowl Championship Series or BCS Initially the BCS selection was based on a formula that incorporated several polls and computer models However the proprietary nature of the computer models and the complexity of the mathematics used to combine the data sources to arrive at the final selection did very little to quiet the controversy This led to the creation of a selection committee to choose the four best teams to compete in a four team playoff Again controversy has ensued with many questioning the politics and nebulous capricious nature of the criteria We have created an alternate model which we have dubbed the weighted wins

system that defines a simple unbiased and consistent mechanism for evaluating and comparing the records of the teams in the NCAA s Bowl Subdivision We have compared the results of the weighted wins model against forty years of actual game results and found that it generates very similar outcomes The primary difference is that it completely removes politics from the selection process and offers a clear path to the playoffs for all members of the Bowl Subdivision [The Cleveland Rams](#) James C. Sulecki,2016-10-24 In 2016 the Rams left St Louis for Los Angeles having departed L A for St Louis in 1995 and caused much heartbreak among fans NFL teams are notorious for decamping to more profitable markets and the Rams history of opportunistic moves goes back to 1946 when they left Cleveland their original hometown where fans had cheered them to a championship a month earlier The move to L A from Cleveland shocked the NFL and shook up its power structure It also jolted the all white league into reintegration prepared the way for the Browns and made the Rams the only NFL champs ever to have spent the following season in a different city This is the story of how the Rams went from a home grown Ohio team funded by local businessmen to the first major league franchise on the West Coast and how their departure jumpstarted a chain of events in Cleveland that continues to this day [J2EE and JAX](#) Michael Yawn, Mike Yawn, 2002 CD ROM contains Source code Tools for developing and deploying Web services **Top 100 Windows 8.1 Apps** Michael Miller, 2014-03-27 Windows 8 and 8.1 are all about the new Modern interface and new full screen Modern apps There are more than 60 000 Modern apps in the Windows Store so how do you find the ones that are best for you Here s where to start **Top 100 Windows 8.1 Apps** by Michael Miller As the title implies this book points out the top 100 Modern Windows apps in ten different categories from games to social media to sports to travel Use this book to go right to the best apps in every category and discover another couple of hundred honorable mentions worth considering too *Race in American Sports* James L.
