Schuett,2024-02-20 This book shares a wealth of educational stakeholder viewpoints about digital distraction from a 1 1 technology integrated high school Data was collected before during and after the start of COVID 19 which provides a unique view into integrated learning and its transformation since the pandemic The author conducted interviews with both teachers and students who also provided logs of their technology use allowing for a qualitative and quantitative understanding of digital distraction Through this insight the author explores the triggers of digital distraction and strategies to help mitigate the phenomenon **Dying for an iPhone** Jenny Chan,Mark Selden,Ngai Pun,2020-06-02 Suicides excessive overtime and hostility and violence on the factory floor in China Drawing on vivid testimonies from rural migrant workers student interns managers and trade union staff Dying for an iPhone is a devastating expose of two of the world s most powerful companies Foxconn and Apple As the leading manufacturer of iPhones iPads and Kindles and employing one million workers in China alone Taiwanese invested Foxconn s drive to dominate global electronics manufacturing has aligned perfectly with China s goal of becoming the world leader in technology This book reveals the human cost of that ambition and what our demands for the newest and best technology means for workers Foxconn workers have repeatedly demonstrated their power to strike at key nodes of transnational production challenge management and the Chinese state and confront global tech behemoths Dying for an iPhone allows us to assess the impact of global capitalism s deepening crisis on workers *Mastering Apple TV 4K* Adidas Wilson , When you hear Apple TV you immediately think it is an actual TV that you are purchasing But this is not the case The Apple TV is actually a device that you will use to stream something a little similar to Amazon s Fire or Roku It is a little black box that is about an inch and a half tall just a little bit less than four inches and it runs on a very similar platform to the iPad and the popular iPhones You can download a list of apps and also games beyond the standard streaming video that you could get from Hulu Netflix Amazon just to name a few The Apple TV has been centered on various apps and it is still able to stream multiple TV shows movies straight to your HDTV but this is just the tip of the iceberg on the features this box has been packed with The box allows you to watch and stream podcasts play your favorite game stream your workout playlist and much more But what is important to note to enjoy all these benefits this box is ready to provide it will all depend on the apps that you have installed Some of the apps you will use are free and some will cost Think of it this way the Apple TV is able to turn your TV into a Smart TV You can either rent your favorite movies or merely stream your collection from your iTunes account You could also stream movie shows from

apps like Hulu Plus or Netflix stream your music from the Pandora or Apple Music apps I mean the list is endless on what the Apple TV can actually do for you The Apple TV 4K has been designed with some of the fastest processors you could find the same that powers the iPad Pro The Apple TV box has been made to be as powerful as most laptops we use It also has a fast graphics processor that has been designed with enough power that could turn the black box into a game console Nothing sounds better than this Apple has genuinely revamped the new generation but this does not mean you have to throw away your older model just the same thing they have been doing with iPhone The third generation is still available in the market for you to purchase
