Empire of AI Karen Hao, 2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping out planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the

ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water underlying everything We have entered a new ominous age of empire with OpenAI setting a breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society

Sam Altman MANAS PAL, 2025-10-29 Sam Altman Architect of the AI Age is the definitive biography of one of the most influential figures in modern technology the man behind OpenAI and ChatGPT From his early days as a curious Midwestern child teaching himself to code to his rise as a Silicon Valley founder with Loopt and later as president of Y Combinator guiding hundreds of startups Altman's journey reflects the restless drive of innovation in its purest form But his most consequential chapter began with the founding of OpenAI a bold mission to ensure that artificial intelligence would serve humanity not threaten it This book traces the story of how OpenAI went from a non profit research lab to the creator of ChatGPT a tool that shocked the world by showing just how close we may be to artificial general intelligence Along the way it explores the controversial decision to adopt a capped profit structure the multibillion dollar partnership with Microsoft and the debates over safety ethics and regulation that Altman has been forced to navigate on the global stage Across more than 30 000 words of research and storytelling you'll discover Altman's childhood education and first ventures in tech Lessons from Loopt and his years shaping the next generation of startups at Y Combinator The founding vision values and controversies of OpenAI How GPT models evolved from obscure research projects into cultural phenomena The release of ChatGPT and the shockwaves it sent through business education and society Altman's views on AGI existential risk and the urgent need for regulation Criticisms and controversies that have tested his leadership The open ended possibilities of a future shaped by artificial intelligence from utopia to dystopia This is not only a biography of Sam Altman but a chronicle of our time the birth of an intelligence beyond human design and the extraordinary risks and opportunities it presents For anyone curious about where technology is heading and the people steering it this book offers both a portrait of a visionary and a reflection on the choices that will define the century The future of AI is being written now This is the story of the man holding the pen

AI Futures Evgeny Morozov, 2025-04-29 A sober assessment of AI today and a bold vision for what it could be Generative AI tools released by a handful of rich tech companies are remaking the economy society and human life as we know it Must their vision be our common destiny Leading a forum acclaimed technology writer Evgeny Morozov author of *To Save Everything* [Click Here](#) and host of the podcast *A Sense of Rebellion* takes a hard look at Silicon Valley's grip on our technological imagination The prevailing wisdom says we can be complacent realists erecting a few guardrails around Big Tech or else total refuseniks rejecting this new technology altogether That false choice runs roughshod over history Morozov argues and with it a more utopian vision of the role technology can play in our lives To sketch a better AI future Morozov takes us back to the past showing how a radically different way of thinking about artificial intelligence

once flourished before losing out to Cold War militarization consumerism and venture capital That more humane vision can still be won but it requires being clear eyed about the obstacles Only by building political power Morozov concludes can we wrench control of AI from Silicon Valley and build a technological future that serves us all Forum respondents include musician Brian Eno computer scientist and AI pioneer Terry Winograd free software activist and former digital minister of Taiwan Audrey Tang technologist Bruce Schneier writer and software engineer Wendy Liu and journalist Edward Ongweso Jr Also in this issue Joelle M Abi Rached on exploding pagers in Beirut and Israel s expanding war Sophia Goodfriend on the military s embrace of the new AI Lily Hu on the political theory of algorithms Alexander Hartley on copyright after ChatGPT Terry Nguyen on the work of literature in the age of large language models and more *The Intelligence Explosion* James Barrat,2025-09-02 With the rapid rise of generative artificial intelligence both existential fears and uncritical enthusiasm for AI systems have surged In this era of unprecedented technological growth understanding the profound impacts of AI both positive and negative is more crucial than ever In *The Intelligence Explosion* James Barrat a leading technology expert equips readers with the tools to navigate the complex and often chaotic landscape of modern AI This compelling book dives deep into the challenges posed by generative AI exposing how tech companies have built systems that are both error prone and impossible to fully interpret Through insightful interviews with AI pioneers Barrat highlights the unstable trajectory of AI development showcasing its potential for modest benefits and catastrophic consequences Bold eye opening and essential *The Intelligence Explosion* is a must read for anyone grappling with the realities of the technological revolution *AI Ink*.
