Sharia or Shura Sakah Saidu Mahmud,2013-08-01 This book explores the differences in Muslim attitudes and approaches to the public square in sub Saharan Africa via a comparative historical analysis of Muslim politics in Northern Nigeria and Senegal since independence in 1960 While Northern Nigeria has been mired in intermittent religious conflicts and violence Senegal has maintained peaceful and tolerant relationships in inter faith and public affairs Yet the two Muslim societies had similar Islamic backgrounds in Sufi orders Qadiriya and Tijaniya in Northern Nigeria and Tijaniya Muridiya Qadiriya and Lahiniya in Senegal known for their peaceful approach to public affairs Furthermore the two Muslim societies belong to the black African Islamic cultural zone These common traits would suggest similar approaches to public affairs but this has not been the case The salient factors which are analyzed in the book include the historical factors the success or failure to establish an Islamic state and the impact of different colonial administrations and ideologies the extent of homogeneity of the social structure in each country and strength of the contemporary state in both countries The combination of these factors

illustrates the experiences of the Muslims which further determine their divergent approaches to the public square **End of an Era** Carl Minzner, 2018-02-01 China's reform era is ending. Core factors that characterized its political stability, ideological openness and rapid economic growth are unraveling. Since the 1990s Beijing's leaders have firmly rejected any fundamental reform of their authoritarian one party political system and on the surface their efforts have been a success. But as Carl Minzner shows, a closer look at China's reform era reveals a different truth. Over the past three decades a frozen political system has fueled both the rise of entrenched interests within the Communist Party itself and the systematic underdevelopment of institutions of governance among state and society at large. Economic cleavages have widened. Social unrest has worsened. Ideological polarization has deepened. Now to address these looming problems, China's leaders are progressively cannibalizing institutional norms and practices that have formed the bedrock of the regime's stability in the reform era. **End of an Era** explains how China arrived at this dangerous turning point and outlines the potential outcomes that could result.

Cloud-Transformation Roland Frank, Gregor Schumacher, Andreas Tamm, 2019-10-01 In diesem Buch lernen Sie wie die Public Cloud die Kostenstrukturen von digitalen Geschäftsmodellen und damit bestehende Märkte signifikant verändert. Die Zusammenhänge zwischen den verwendeten Cloud Architekturen der Organisation des Unternehmens und den dadurch möglichen Preis und Geschäftsmodellen werden berücksichtigt und für den Einsatz im eigenen Unternehmen nutzbar aufbereitet. Die Autoren erläutern wie der Reihe nach immer mehr Märkte zu digitalen Märkten werden und welche Rolle die Grenzkosten dabei spielen. Sie beschreiben wie die cloudbasierte IT die klassische IT disruptiert. Dadurch können kleine Teams mit geringen Investitionen weltweit skalierende Geschäftsmodelle zu Null Grenzkosten aufbauen. Die wirtschaftlichen Effekte werden anhand konkreter Beispiele nachvollziehbar dargestellt. Zusätzlich erhalten technische Laien einen Überblick welche Faktoren für die Wettbewerbsfähigkeit ihrer digitalen Geschäftsmodelle besonders wichtig sind und wie Manager diese beeinflussen können. Zum Abschluss gibt das Buch Praktikern einen konkreten Leitfaden an die Hand wie die Cloud Transformation im Unternehmen durchgeführt werden kann. Das Buch richtet sich vor allem an Führungskräfte und Mitarbeiter in den Fachbereichen und der IT die die Cloud Transformation in ihren Unternehmen vorantreiben möchten.

China and the Internet Song Shi, 2023-12-15 Two oversimplified narratives have long dominated news reports and academic studies of China's Internet: one lauding its potentials to boost commerce, the other bemoaning state control and measures against the forces of political transformations. This bifurcation obscures the complexity of the dynamic forces operating on the Chinese Internet and the diversity of Internet related phenomena. China and the Internet analyzes how Chinese activists, NGOs and government offices have used the Internet to fight rural malnutrition, the digital divide, the COVID-19 pandemic and other urgent problems affecting millions of people. It presents five theoretically informed case studies of how new media have been used in interventions for development and social change including how activists battled against COVID-19. In addition, this book applies a Communication for Development approach to examine the use and

impact of China's Internet Although it is widely used internationally in Internet studies Communication for Development has not been rigorously applied in studies of China's Internet This approach offers a new perspective to examine the Internet and related phenomena in Chinese society **My Kind of Sound** Enrique Encabo, 2020-11-24 This volume explores the

importance and significance that music has in our lives The relationship between music and identity is based on conceptions about meanings and identification especially powerful when connected with youth and popular music We narrate ourselves in a musical way and we must study music as culture rather than music in culture The contributions to this book attend to emerging phenomena such as the rise of the Reggaeton music around the world the importance of music in anime media and music industry changes and uncertainties in the new millennium Music is art but it is also an industry and a business and the two are intertwined through the sale of tickets original formulas are obtained and in the same way products not just musical but multimedia are born from alternative culture eventually becoming mainstream In addition this book also takes into account iconic artists such as Nirvana David Bowie or Miley Cyrus and the important contribution of music to the narrative and success of popular TV series analysing cases such as Babylon Berlin and Vikings From Blade Runner 1982 to current television mainstream productions the music image alliance does not only satisfy and distract us but also challenges us and forces us to rethink our view of the world Headlines That Matter Kavita Chandran, Saldene Lyte, 2025-08-01 An in depth

19 Tips for Successful Public Relations, Christmas and the British: A Modern History Martin Johnes, 2016-10-06 The modern Christmas was made by the Victorians and rooted in their belief in commerce family and religion Their rituals and traditions persist to the present day but the festival has also

been changed by growing affluence shifting family structures greater expectations of happiness and material comfort technological developments and falling religious belief Christmas became a battleground for arguments over consumerism holiday entitlements social obligations communal behaviour and the influence of church state and media Even in private it encouraged reflection on social change and the march of time Amongst those unhappy at the state of the world or their own lives Christmas could induce much cynicism and even loathing but for a quieter majority it was a happy time a moment of a joy in a sometimes difficult world that made the festival more than just an integral feature of the calendar Christmas was one of British culture s emotional high points Moreover it was also a testimony to the enduring importance of family shared values and a common culture in the UK Martin Johnes shows how Christmas and its traditions have been lived adapted and thought about in Britain since 1914 Christmas and the British is about the festival s social cultural and economic functions and its often forgotten status as both the most unusual and important day of the year
