Alexander,2019-05-12 Stress is all around us at work at home online you name it A simple Google search on stress will pull up over one billion results on what stress is types of it what causes it symptoms and what you can do about it But we don t need Google to tell us if we re stressed the reality is we know it because our mind and body are delivering clear signals that we are taxing ourselves The problem is that we don t have the time to figure out how to deal with stress in the now and then

we stress out about not being able to deal with our stress a vicious circle Sure you could buy a book or download an app on meditating or breathing or journaling or exercising You could open the book or app and give it a try but it probably didn't work Why Maybe you didn't give it enough time Maybe you tried it while also responding to 100 emails Maybe the techniques provided were too complicated or time intensive so now you're frustrated and thinking I've got this really important meeting presentation this morning where I have to be at my best Isn't there some tool or technique that can help me right now in this moment The answer is yes If you flip through this book you will see that there are hundreds of fast effective and easy tips and tools designed specifically to be used in the now Why so many Because you are unique so there is no such thing as a one size fits all tool for stress relief What works for one person may not work for someone else The book's foundation is the LIGHTEN Model and the tools suggested are organized around the areas of your life that need to be nurtured in order to achieve long term stress relief Livelihood career Imagination Genius unconscious mind Health Time Environment and Network relationships If you are stressed about hitting your sales quota take a look at the Livelihood or Time chapter Worried about that next presentation The Imagination chapter has some great techniques Anxious about your next doctor's appointment Check out the Genius or Health chapter Meeting your in-laws The Network chapter is the place to go The intent of this book is that you keep it handy for whenever or wherever you need it that important meeting presentation that difficult conversation you need to have the multiple priorities all needing your attention right now or anything else that stresses you out when shit happens If you just have a couple minutes to spare to get some quick and easy stress relief this book is for you

Reviews on New Drug Targets in Age-Related Disorders Paul C. Guest, 2020-04-17 Aging is an inevitable part of life and is becoming a worldwide social economic and health problem This is mainly due to the fact that the increasing proportion of individuals in the advanced age category have a higher probability of developing age related disorders such as type II diabetes mellitus cardiovascular disorders sarcopenia and neurodegenerative conditions New therapeutic approaches are still needed to decrease or slow the effects of such diseases Advances in omic technologies such as genomics transcriptomics proteomics and metabolomics have significantly advanced our understanding of disease in multiple medical areas as the analysis of multiple molecular networks has simultaneously provided a more integrated view of disease pathways It is hoped that emerging hits from these analyses might be prioritized for further screening as potential novel drug targets for increasing the human healthspan in line with the lifespan In turn this will lead to new therapeutic strategies as well as drug development projects by the pharmaceutical industry This book presents a series of reviews describing studies that have resulted in identification of new potential drug targets for age related disorders Much of this information has come from omic comparisons of healthy and disease states or from testing the effects of new therapeutic approaches Authored by experts from around the globe each chapter is presented in the context of specific chronic diseases or therapeutic strategies This book is designed for researchers in the areas of aging and chronic disease as well as clinical

An in depth guide to blending the practice of yoga with cannabis Examines the physical mental spiritual and energetic effects of cannabis and yoga including their effects on the nervous system and chakras Explains how yoga practice offers a way to tune the human nervous system and how through the endocannabinoid system cannabis harmonizes a multitude of functions from respiration to pain control in ways that enhance yoga Offers an illustrated sequence of cannabis yoga asanas postures developed to awaken kundalini open energy channels accelerate healing and unlock access to unbounded states of consciousness In India both yoga and cannabis are considered gifts from the Hindu god Shiva They are seen as twin currents of wisdom and enlightenment allies for healing and consciousness expansion As ethnobotanist and yogi Chris Kilham explains when wisely and thoughtfully combined cannabis and yoga offer profound benefits for body mind and spirit Kilham examines the history and lore of both cannabis and yoga with a special focus on the role of cannabis in Indian and Himalayan yoga traditions where it has been used for thousands of years He investigates cannabis and yoga s effects on the chakras and energy body and how they assist in opening energy channels and awakening kundalini energy He explains how yoga practice offers a way to tune the human nervous system and how through the endocannabinoid system cannabis harmonizes a multitude of functions from respiration to pain control in ways that enhance yoga He looks at the effects of both THC and CBD as well as the different methods of consuming cannabis with advice on selecting the right method for your yoga practice In addition to instructions for breathwork and cannabis meditation practices Kilham offers an illustrated guide to his own system of cannabis yoga a sequence of asanas postures developed to arouse the kundalini open up energy channels throughout your body and unlock access to unbounded states of consciousness Sharing his experiences combining yoga and cannabis around the world the author shows that the fusion of cannabis and yoga dissolves the boundaries of the mind accelerates healing and imparts a greater understanding of the intrinsic unity of all things The Meritocracy Trap Daniel Markovits, 2019-09-10 This book flips your world upside down Daniel Markovits argues that meritocracy isn t a virtuous efficient system that rewards the best and brightest Instead it rewards middle class families who can afford huge investments in their children s education Frightening eye opening stuff The Times Books of the Year Even in the midst of runaway economic inequality and dangerous social division it remains an axiom of modern life that meritocracy reigns supreme and promises to open opportunity to all The idea that reward should follow ability and effort is so entrenched in our psyche that even as society divides itself at almost every turn all sides can be heard repeating meritocratic notions Meritocracy cuts to the heart of who we think we are But what if both up and down the social ladder meritocracy is a sham Today meritocracy has become exactly what it was conceived to resist a mechanism for the concentration and dynastic transmission of wealth and privilege across generations Upward mobility has become a fantasy and the embattled middle classes are now more likely to sink into the working poor than to rise into the professional elite At the same time meritocracy now ensnares even

those who manage to claw their way to the top requiring rich adults to work with crushing intensity exploiting their expensive educations in order to extract a return All this is not the result of deviations or retreats from meritocracy but rather stems directly from meritocracy s successes This is the radical argument that The Meritocracy Trap prosecutes with rare force comprehensive research and devastating persuasion Daniel Markovits a law professor trained in philosophy and economics is better placed than most to puncture one of the dominant ideas of our age Having spent his life at elite universities he knows from the inside the corrosive system we are trapped within as well as how we can take the first steps towards a world that might afford us both prosperity and dignity
