Tasks

Scheduling Tasks: Tasks in Project can be manually or auto-scheduled.

- **Manually Scheduled Tasks (the default):** Can be placed anywhere in the activity and Project won't move them. You can add just the details you know and come back later to fill in additional details.
- **Auto Scheduled Tasks:** Are scheduled by Project. You enter information such as the task duration, work, resources, and constraints, and Project calculates when the task should start.

Set the Task Scheduling Mode: Click the New Task button in the status bar and select a scheduling method.

Insert a Task: In Gantt Chart view, click where you want to add the new task and click the Task button on the Task tab. Type a name for the task and press Enter.
