Migration Theory Talking Across Disciplines:

Migration Theory Caroline B. Brettell, James F. Hollifield, 2014-08-25 During the last decade the issue of migration has increased in global prominence and has caused controversy among host countries around the world To remedy the tendency of scholars to speak only to and from their own disciplinary perspective this book brings together in a single volume essays dealing with central concepts and key theoretical issues in the study of international migration across the social sciences Editors Caroline B Brettell and James F Hollifield have guided a thorough revision of this seminal text with valuable insights from such fields as anthropology demography economics geography history law political science and sociology Each essay focuses on key concepts questions and theoretical frameworks on the topic of international migration in a particular discipline but the volume as a whole teaches readers about similarities and differences across the boundaries between one academic field and the next How for example do political scientists wrestle with the question of citizenship as compared with sociologists and how different is this from the questions that anthropologists explore when they deal with ethnicity and identity Are economic theories about ethnic enclaves similar to those of sociologists What theories do historians the essentializers and demographers the modelers draw upon in their attempts to explain empirical phenomena in the study of immigration What are the units of analysis in each of the disciplines and do these shape different questions and diverse models and theories Scholars and students in migration studies will find this book a powerful theoretical guide and a text that brings them up to speed quickly on the important issues and the debates All of the social science disciplines will find that this book offers a one stop synthesis of contemporary thought on migration

Migration und Integration als wirtschaftliche und gesellschaftliche Ordnungsprobleme

Rahel Schomaker, Christian Müller, Andreas Knorr, 2016-09-12 Keine ausführliche Beschreibung für Migration und Integration als wirtschaftliche und gesellschaftliche Ordnungsprobleme veröffentlicht Migration Michael Samers, Michael Collyer, 2016-12-08

While the subject of migration has received enormous attention in academic journals and books across the social sciences introductory texts on the matter are few and far between Even fewer books have explored migration through a critical and explicit engagement with spatial concepts Now in its second edition Migration remains the only text in more than a decade

that emphasizes how geographical or spatial concepts can be used critically to understand migration The multi disciplinary text draws on insights from human geography political science social anthropology sociology and to a lesser extent economics All of the chapters focus on key terms theories concepts and issues concerning migration and immigration The book argues that in the context of migration two opposing spatial positions have emerged in the wake of the critique of methodological nationalism On one hand is the significance of transnationalism and on the other the importance of sub national or local processes Both require more nuance and integration while many of the concepts and theories which have thus far neglected space or have not been treated spatially need to be re written with space in mind Pedagogically the text combines a carefully defined structure accessible language boxes that explore case studies of migrant related experiences in particular places annotated suggestions for further reading useful websites and relevant films and summary questions for student learning at the end of each chapter Migration provides a critical multi disciplinary advanced and theoretically informed introduction to migration and immigration Revised and updated with new material new maps and illustrations and an accompanying website <https://migration2ndedition.wordpress.com> it continues to be aimed at advanced undergraduates and Masters level graduate students undertaking courses on migration and immigration

Bibel und Migration Markus Zehnder, 2023 Westliche Gesellschaften haben sich in den vergangenen Jahrzehnten aufgrund von Massenmigration drastisch verändert Welches Licht fällt von der Bibel und biblischer Ethik auf dieses Phänomen Unterstreicht sie das Konzept der Willkommenskultur Das Buch leitet dazu an einen Schritt zurückzutreten und das Ganze des biblischen Zeugnisses in den Blick zu nehmen und so fehlgeleitete Übertragungen und ideologische Engführungen zu überwinden Neben dem biblischen Material werden Daten aus den Bereichen Psychologie Demographie Ökonomie und Sicherheit in den Blick genommen

'Sounding Homeland' Joseph Wasswa, 2024 Mit der Einwanderungszunahme von Menschen afrikanischer Herkunft nach Deutschland entstanden im Laufe der letzten Jahrzehnte des 20. Jahrhunderts eigene afrikanische Communities und Verbände die als Orte der interkulturellen Begegnung und Hoffnung fungieren Die mitgebrachte Musikkultur ist dabei ein Zeugnis kultureller Identität die bewahrt und gefördert wird Doch welche konkreten Strategien werden in Anbetracht der transnationalen und transkulturellen Prozesse zur Identitätsstärkung und zu einem Heimatgefühl für Migrierte in der Diaspora angewendet Und welche Rolle spielen dabei kulturspezifische Afrikanische Katholische Communities die sich als Antwort auf die immer wieder erfahrbaren rassistischen Repressionen gegenüber Menschen afrikanischer Herkunft etablieren Im Sinne der Erinnerungskultur der Identitätskonstruktion und der Auseinandersetzung mit der neuen Heimat werden Communities und deren heimatbezogene Angebote als wertvolle Hilfsmittel und Ressourcen einer angestrebten soziokulturellen Integration untersucht Dr Joseph Wasswa studierte Musik und Ethnologie an der Staatsuniversität Makerere in Uganda sowie Kirchenmusik in Regensburg Seine akademische Laufbahn setzte er mit seinem Master und Promotionsstudium im Fach Vergleichende Kulturwissenschaft an der Universität Regensburg fort Als ehemaliger Stipendiat der Hanns Seidel Stiftung

African Migrations Abdoulaye Kane, Todd H. Leedy, 2013-02-18. Engaging case studies add to understanding the social processes of voluntary and forced displacement within the continent and across the seas. Choice. Spurred by major changes in the world economy and in local ecology, the contemporary migration of Africans both within the continent and to various destinations in Europe and North America has seriously affected thousands of lives and livelihoods. The contributors to this volume, reflecting a variety of disciplinary perspectives, examine the causes and consequences of this new migration. The essays cover topics such as rural-urban migration into African cities, transnational migration and the experience of immigrants abroad, as well as the issues surrounding migrant identity and how Africans re-create community and strive to maintain ethnic, gender, national and religious ties to their former homes. **Reseña de "Migration Theory. Studienarbeit aus dem Jahr 2006 im Fachbereich Politik Internationale Politik, Thema: Entwicklungspolitik, Note 1,3. Albert Ludwigs Universität Freiburg. 25 Quellen im Literaturverzeichnis. Sprache: Deutsch. Abstract: Die Politik der philippinischen Regierung scheint der Einsicht zu folgen, dass Migration gerade aus ökonomischer Sicht zu einer Entwicklung in den Entwicklungsländern führen kann. Diese Überlegungen sind in letzter Zeit ebenfalls in der politikwissenschaftlichen Forschung verstärkt aufgegriffen worden. Die Studie versucht, zu zeigen, dass kluge Migrationspolitik wirkungsvoller sein kann als traditionelle Entwicklungspolitik. Die Arbeit geht der Frage nach, ob durch die Steuerung von Migration gering qualifizierter Arbeiter ökonomische und soziale Entwicklung gefördert werden kann. Ist das Migration Management der philippinischen Regierung als eine erfolgreiche entwicklungspolitische Maßnahme zu bezeichnen? Aus kritischer Perspektive muss konstatiert werden, dass in den letzten zehn bis fünfzehn Jahren eine Feminisierung und Flexibilisierung transnationaler Arbeit eingesetzt und zu einer institutionalisierten Marginalisierung von Arbeitsmigranten in Niedriglohnsektoren geführt hat. Am Beispiel der Philippinen zeigte sich, dass eine nachhaltige ökonomische Entwicklung des Landes nicht eingetreten ist und der Zwang zum Arbeiten ins Ausland zu gehen sich verstärkt hat. Die daraus resultierenden sozialen Folgen sind weitreichend. **Migration und die Macht der Forschung** Lena Karasz, 2017. *Soziale Ungleichheit in der erweiterten Europäischen Union* Maurizio Bach, Anton Sterbling, 2008. **Kontroversen über den Zustand der Welt** Marcel van der Linden, 2007. *Neue Zuwanderergruppen in Deutschland* Deutsche Gesellschaft für Demographie.
