This edited volume, *Migration and Integration: Japan in Comparative Perspective*, is the product of an international symposium in 2007 co-sponsored by the German Institute for Japanese Studies and Waseda University's Graduate School of Asia-Pacific Studies. As the title suggests, the book frames migrant issues in Japan and other comparable countries in the context of demographic change and challenges of migrant integration into the host society. The presence of migrants is mainly explained in the context of rising demands for labour due to an aging host population. About half of the academic chapters in the volume are explicitly concerned with the integration of migrants into the labour market, while other discussions view migrants as legitimate members of the host society, with social, political, economic and civil rights. The authors use various data to support their arguments, ranging from academic literature, statistics and news reports to policy documents, survey findings and media content analysis. Their analyses frequently pay attention to historical trajectories of government policies regarding immigration and integration.

The volume is organised into three sections: 'Section 1: Japan' (pages 17-108); 'Section 2: Comparative Perspectives from Germany, France and Canada' (pages 109-195); and 'Section 3: Windows on the Grassroots' (pages 198-219). The authors grapple with urgent issues faced by developed and aging societies as recipients of migrants, and all the chapters offer interesting viewpoints, albeit with varying levels of evidence to support the claims and arguments made.

In the first chapter of Section 1, Mike Douglass (pp. 19-40) uses figures from news items to discuss commonly explored issues such as international marriage, transnational domestic workers and the reproductive care they provide to aging societies, remittances as household incomes, and retirement migration by using the concept of 'global householding'. While the chapters of this edited volume are too diverse to fit neatly into this framework, it provides an effective structure for organising similarly themed edited volumes and may produce new theoretical insights into changing family life in a globalising world.

The second, third and fifth chapters in Section 1 explore factors that hinder migrants' rights and belonging in Japan. Writings by Chikako Kashiwazaki and Takashi Kibe each critique the cultural focus of Japan's efforts to develop its own version of multiculturalism. Kashiwazaki problematises the implicit dichotomy between the Japanese and the foreigner in pro-migrant activist voices that reinforces the idea that migrants are 'foreign' to ethnically homogeneous Japan (pp. 41-57). Her advocacy of developing a multiethnic concept of Japanese nationhood is apt, as a growing number of Japanese nationals also have multi-ethnic or multi-national backgrounds. From the viewpoint of immigrant inclusion in the social welfare regime, Kibe also finds the culture-oriented nature of *tabunka kyōsei* ('the Japanese version of multiculturalism') ineffective (p. 60). Instead, he seeks a better integration of immigration

Migration And Integration Japan In Comparative Perspective:

Migration and Integration Gabriele Vogt, Deutsches Institut für Japanstudien, Glenda Susan Roberts, 2011 [Japans neue Immigrationspolitik](#) Chiavacci David, 2012-01-05 Japan wurde lange als ein Paradebeispiel für ein Nichtimmigrationsland unter den fortgeschrittenen Industrieländern betrachtet. Doch seit Mitte der 1980er Jahre hat sich auch Japan parallel zur Etablierung der ostasiatischen Migrationsregion in ein Immigrationsland transformiert und verzeichnet seither signifikante und kontinuierliche Zu- und Einwanderungsströme. Die vorliegende Studie untersucht Japans neue Immigrationspolitik der beiden letzten Dekaden in ihrem regionalen Kontext in Ostasien. Zwar wird in der Fachliteratur oft angenommen, dass die japanische Immigrationspolitik primär durch einen stark ausgeprägten Ethnonationalismus geformt wird. Eine detaillierte Analyse zeigt jedoch, dass sich die japanische Immigrationspolitik im Gegenteil gerade durch eine ideelle Diversität auszeichnet. Der Politikprozess weist zudem eine institutionelle Fragmentierung auf, was zu einer gegenseitigen Blockierung der Politikakteure vor dem Hintergrund ihrer unterschiedlichen ideellen Perspektiven und den damit verbundenen Politikpräferenzen führt. Die Folge dieser ideellen Diversität und institutionellen Fragmentierung ist eine Diskrepanz zwischen offizieller und realer Immigrationspolitik. Das Fehlen einer langfristigen Strategie und proaktiven Ausrichtung der Immigrationspolitik in Japan in den letzten Jahren ist nicht die Folge einer Schwäche des japanischen Staates gegenüber, sondern einer Immobilisierung aufgrund dieser internen Fragmentierung.

Open Borders, Open Society? Immigration and Social Integration in Japan Toake Endoh, 2022-05-16 Ist Japan auf eine multikulturelle Gesellschaft vorbereitet? Der Band untersucht die Entwicklung der japanischen Einwanderungs- und Integrationspolitik sowie der damit verbundenen Institutionen und verfolgt dabei einen disziplinübergreifenden sozialwissenschaftlichen Ansatz. Die Autorin beleuchtet kritische Fragen und Herausforderungen mit denen das Land aufgrund der unartikulierten Politik der Akzeptanz von Migration seitens der Regierung konfrontiert ist, z.B. in den Bereichen Flüchtlingspolitik, multikulturelle Bildung und Katastrophenschutz. Wie kann die Situation verbessert werden? Das Buch untersucht Veränderungen und Initiativen die

Immigration and Quality of Life in Ageing Societies Aeneas Zi Wang, Aimi Muranaka, Florian Coulmas, 2024-08-16. This edited book argues that a new perspective on immigration is needed. As many advanced economies are ageing and their populations stagnate or decline, immigrants are increasingly required to fill in the gaps left behind by shrinking workforces. Against this backdrop, the outdated view that it is and can only be a privilege for immigrants to move temporarily from less to more developed economies needs a rethink. In particular, questions about how attractive a host destination can be for immigrants, not just in economic but also in social, political, linguistic and cultural terms, should be raised. Considering in detail the situation in Japan and Germany – Japan where there are hardly any convenience stores without foreign employees, Germany where retirement homes would no longer function without foreign nursing staff – the book analyses migration to these two countries in different aspects such as education, training and labour market participation and policies and actions on the part of the state and policymakers in rendering moving to and living in these countries worthwhile. Bringing together leading scholars active in diverse aspects of migration in Japan and Germany, this book will be a valuable resource to students and scholars with an interest in immigration issues in these two countries, specifically in Europe and Asia more broadly.

Creating Social Cohesion in an Interdependent World Tetsuo Mizukami, 2016-04-08. *Creating Social Cohesion in an Interdependent World* examines the ways in which two very different societies, Australia and Japan, have dealt with challenges to their cultural and institutional fabric as well as the social cohesion arising from the acceleration of global interdependence during recent decades. Deepening globalization has generated great social dislocation and uncertainty about collective identity and to anxiety about how to accommodate apparently unstoppable external influences. The studies in this volume explore areas which have experienced significant impact from globalization, including immigration policy, ethnic and racial intermarriage, attitudes towards ethnic and racial minorities, national and cultural identity, education policy and labor relations. The approach used is innovative in juxtaposing two societies which, although developed, are contrasting in their historical origins and contemporary cultural legacies.
