Heartthrobs Carol Dyhouse,2017-02-09 From dreams of Prince Charming or dashing military heroes to the lure of dark strangers and vampire lovers from rock stars and rebels to soulmates dependable family types or simply good companions female fantasies about men tell us a great deal about the history of women In *Heartthrobs* Carol Dyhouse draws upon literature cinema and popular romance to show how the changing cultural and economic position of women has shaped their dreams about men When girls were supposed to be shrinking violets passionate females risked being seen as unbridled or dangerously out of control Change came slowly and young women remained trapped in a double bind you may have needed a husband in order to survive but you had to avoid looking like a gold digger Show attraction too openly and you might be judged fast and undesirable Education and wage earning brought independence and a widening of horizons for women These new economic beings showed a sustained appetite for novel reading cinema going and the dancehall They sighed over Rudolph Valentino s screen performances as tango dancer or Arab tribesman and desert lover Women may have been ridiculed for these obsessions but as consumers they had new clout This book reveals changing patterns of desire and looks at men through the eyes of women *Rational Powers in Action* Sergio Tenenbaum,2020-11-05 Human actions unfold over time in pursuit of ends that are not fully specified in advance *Rational Powers in Action* locates these features of the human condition at the heart of a new theory of instrumental rationality Where many theories of rational agency focus on instantaneous choices between sharply defined outcomes treating the temporally extended and partially open ended character of action as an afterthought this book argues that the deep structure of instrumental rationality can only be understood if we see how it governs the pursuit of long term indeterminate ends These are ends that cannot be realized

through a single momentary action and whose content leaves partly open what counts as realizing the end Sergio Tenenbaum argues that we need to focus on temporal duration and the indeterminacy of ends in intentional action even to explain the rational governance of relatively simple actions Theories of moment by moment preference maximization or indeed any understanding of instrumental rationality on the basis of momentary mental items cannot capture the fundamental structure of our instrumentally rational capacities Tenenbaum provides a new theory of instrumental rationality as rationality in action

Integrating Children's Literature through the Common Core State Standards Rachel L. Wadham, Terrell A.
