Trave's Venture into the Forest's Mysteries Shlok Y Mogre, Trave was a simple eighteen year old boy finishing his last year at high school with his friends Adva and Maya However neither of them knew that their history teacher Mr Simms hid some important secrets While on a school trip to the famous Krivid caves Trave gains two more classmates as friends Bexer and Nate Things quickly go wrong when Trave discovers a bizarre death near the caves and the entire class is rushed home Over the next few days these deaths begin to plague the entire city sending it into a lockdown However it also personally attacks one of the five friends With no answers from anyone and nowhere else to go Trave and his friends come together and decide to take matters into their own hands They begin with whatever trails they find which ultimately leads them to retrace Mr Simms's steps into a mysterious forest that just might give them all their answers and raise more questions

Categories in Algebra, Geometry and

Mathematical Physics Alexei Davydov, 2007 Category theory has become the universal language of modern mathematics. This book is a collection of articles applying methods of category theory to the areas of algebra, geometry, and mathematical physics. Among others, this book contains articles on higher categories and their applications and on homotopy theoretic methods. The reader can learn about the exciting new interactions of category theory with very traditional mathematical disciplines.
