Classroom Connect Newsletter ,2002 **Cognition** Thomas A. Farmer,Margaret W. Matlin,2019-01-14 The study of human cognitive processes provides insight into why we act or react and can help us predict future behaviors In Cognition authors Thomas Farmer and Margaret Matlin present an engaging and highly relatable examination of how these processes work and how they are responsible for the way we perceive and interpret the world around us Broad in scope without sacrificing depth of detail this text emphasizes the link between conceptual cognitive psychology and real world experience case studies current trends and historical perspectives merge to provide a comprehensive understanding of core principles and theories This new Tenth Edition has been updated to reflect the latest research technology and thinking with more in depth coverage of topics rising to prominence in the field s current knowledge base Expanded explanations balance classical and contemporary approaches to specific topics while additional experiments and an emphasis on methodology and experimental design are included to facilitate a greater appreciation of the field s rigorous research **Failure to Connect** Jane M. Healy,1999-07-13 In this comprehensive practical and unsettling look at computers in children s lives Jane M Healy Ph D questions whether computers are really helping or harming children s development Once a bedazzled enthusiast of educational computing but now a troubled skeptic Dr Healy examines the advantages and drawbacks of computer use for kids at home and school exploring its effects on children s health creativity brain development and social and emotional growth Today the Federal Government allocates scarce educational funding to wire every classroom to the Internet software companies churn out educational computer programs even for preschoolers and school administrators cut funding and space for books the arts and physical education to make room for new computer hardware It is past the time to address these issues Many parents and even some educators have been sold on the idea that computer literacy is as important as reading and math Those who haven t hopped on the techno bandwagon are left wondering whether they are shortchanging their children s education or their students futures Few people stop to consider that computers used incorrectly may do far more harm than good New technologies can be valuable educational tools when used in age appropriate ways by properly trained teachers But too often schools budget insufficiently for teacher training and technical support Likewise studies suggest that few parents know how to properly assist children s computer learning much computer time at home may be wasted time drawing children away from other developmentally important activities such as reading hobbies or creative play Moreover Dr Healy finds that much so called learning software is more edutainment than educational teaching students more about impulsively pointing and clicking for some trivial goal than about how to think to communicate to imagine or to solve problems Some software used without careful supervision may also have the potential to interrupt a child s internal motivation to learn Failure to Connect is the first book to link children s technology use to important new findings about stages of child development and brain maturation which are clearly explained throughout It illustrates through dozens of

concrete examples and guidelines how computers can be used successfully with children of different age groups as supplements to classroom curricula as research tools or in family projects Dr Healy issues strong warnings however against too early computer use recommending little or no exposure before age seven when the brain is primed to take on more abstract challenges She also lists resources for reliable reviews of child oriented software suggests questions parents should ask when their children are using computers in school and discusses when and how to manage computer use at home Finally she offers a thoughtful look at the question of which skills today s children will really need for success in a technological future and how they may best acquire them Based on years of research into learning and hundreds of hours of interviews and observations with school administrators teachers parents and students Failure to Connect is a timely and eye opening examination of the central questions we must confront as technology increasingly influences the way we educate our children

The Dyslexia-Friendly Teacher's Toolkit Barbara Pavey, Margaret Meehan, Sarah Davis, 2013-06-17 This book is a really practical hands on guide packed with a wealth of advice on strategies and things to try reflecting the authors extensive experience If you want to make effective inclusive dyslexia friendly classrooms a reality rather than an aspiration this book is for you Dr John P Rack Head of Research and Development Dyslexia Action In this toolkit the authors provide you with the foundations for making your setting and your teaching style dyslexia friendly There is a general overview of the principles and practices required and what the dyslexia aware teacher needs to bear in mind Chapters cover understanding learners with dyslexia dyslexia and phonics dyslexia and English as an Additional Language dyslexia and mathematics dyslexia and science dyslexia and creativity Each chapter includes visual chapter overviews tried and tested strategies for the classroom and the whole school using technology to help learners case studies from practice children s voices and sources of further information The book offers you ideas and advice and will ensure you feel confident you are doing the right things to help overcome barriers to learning Barbara Pavey is a lecturer in Higher Education training dyslexia specialists in the North of England Margaret Meehan is Coordinator of Specialist Tuition at Swansea University Sarah Davis is an Early Years Leading Teacher working in North Yorkshire

Outstanding Dissertations in Bilingual Education Recognized by the National Advisory Council on Bilingual Education, 1979 United States. National Advisory Council on Bilingual Education, 1980

Coaching Struggling Readers, eBook Doug Stoffel, **Local Literacies** Glenys Waters, 2024-09-10 While many books have been written about basic literacy few offer detailed information on how to plan and carry out a community literacy project Fewer still give guidance in tackling the additional barriers of language culture and logistics in developing countries and in treating the local community as an active partner rather than a passive recipient

in the literacy process In *Local Literacies Theory and Practice* Glenys Waters includes these elements and presents a practical guide for developing a literacy program Beginning with a discussion of the theories of learning and reading the author provides a detailed description of how to plan and organize a literacy program when the practitioner has little to go on but wit knowledge and determination With approximately one half of the book given to the development of instructional methods and materials in reading writing and basic math *Local Literacies* will be especially helpful to those doing literacy work in linguistically diverse settings in much of the developing world The reader will quickly discover that this is a book written by a person who has been there and done that Waters has spent more than twenty years in Australia and Papua New Guinea both as a practitioner and a consultant in programs of literacy for adults and children This personal experience plus a thorough knowledge of the professional literature makes *Local Literacies* a must for the pioneering literacy worker

The Lit Six Nancy Akhavan, 2025-10-23 Combine research backed literacy instruction with classroom routines that help students find reading success As schools embrace the science of reading implementing evidence based literacy practices is a must Yet it can be challenging for busy teachers to know exactly how to put research based approaches and strategies to work in the classroom In *The Lit Six What Every Teacher Needs to Build an Evidence Based Literacy Block* author Nancy Akhavan provides a framework that equips educators with the tools and strategies to build an effective research backed literacy block that engages students and fosters skilled readers and writers The book shows teachers how to integrate six essential daily elements for their literacy block 1 read alouds 2 shared reading 3 small group instruction 4 writing 5 language including vocabulary and morphology and 6 phonemic awareness phonics and word work Designed to address the practical challenges teachers face in aligning teaching practices with the latest science of reading research this book provides actionable solutions to common questions like What should I teach first and How do I effectively organize my literacy block *The Lit Six* blends evidence based daily reading instruction with student centered approaches to help every learner thrive Written in Nancy Akhavan s signature straightforward and teacher friendly style this book offers A Comprehensive Model Discover how to integrate six essential components of a successful literacy block into your lessons Practical Tools for Teachers Access scaffolds decision trees graphic organizers and detailed guides to jump start implementation Flexibility in Application Learn how to apply research driven practices that create the foundation for great literacy teaching and can be used alongside mandated curriculums to help you meet the needs of all learners in your classroom Data Driven Tips Discover how to use classroom data to refine instruction and maximize student progress Rooted in decades of classroom experience and informed by the latest literacy research this book is your guide to seamlessly blending the art and science of teaching With *The Lit Six* educators can design dynamic literacy blocks that not only align with the research but also respond to the unique needs of their students and foster literacy for all

Choosing and Using Curriculum Joyce Herzog, 2015-03-16 Have you ever asked yourself any of these questions What am I doing Why am I doing it that way Are there other ways Which way is best for

my family Where do I get the resources I need to make it happen How do I avoid over spending on curriculum This book is a wealth of information Topics and chapters include Comparison of reading programs Comparison of math programs Developing written expression Adapting materials for special situations General homeschooling resources Resources for blind deaf and speech language Curriculum types and styles How to take a snapshot of your child s progress This book is a two hour read that will provide you with direction comfort and the means to make your homeschool some together in the ways you dream of It will help you clear your brain and know your mind and then find the resources you need to carry out your newly discovered vision You don t want to start homeschooling without it **Resources in Education** ,1997-04

Diagnose und Förderung des Lesens im digitalen Kontext Tobias Richter,Wolfgang Lenhard,2024-02-26 Lesen ist eine Kulturtechnik die bedingt durch den schnellen technologischen Wandel selbst fortlaufender Veränderung unterworfen ist Die inzwischen vorwiegend in der digitalen Welt stattfindende Lesetätigkeit unterscheidet sich zum Teil von der traditionellen Rezeption gedruckter Texte Beispielsweise birgt das Lesen auf dem Bildschirm die Gefahr einer geringeren Verarbeitungstiefe Gleichzeitig muss viel stärker auf die Verknüpfung von Informationen aus multiplen Texten und auf die Prüfung von der Qualität und Glaubwürdigkeit von Texten geachtet werden Das digitale Zeitalter eröffnet jedoch auch Potenziale für die Diagnostik und Förderung von Lesefähigkeiten und Leseverständnis Es sind neue Herangehensweisen möglich die über unmittelbare Rückmeldungen den Lerneffekt erhöhen den Lernverlauf sichtbar machen und Informationsquellen erschließen die beim Lesen auf Papier nicht erfassbar sind Neben einer Reflexion des aktuellen Forschungsstandes bietet der Band auch einen Überblick über aktuell verfügbare Verfahren und Online Plattformen **Literacy Development with English Learners** Lori Helman,2012-03-12 An indispensable course text and practitioner resource this teacher friendly book puts the needs of English language learners ELLs front and center Leading authorities connect current research to effective instructional practices for elementary students with varying degrees of English proficiency Key components of literacy instruction are addressed including phonemic awareness phonics fluency vocabulary and comprehension Chapters also explore how linguistic sociocultural psychological and educational factors shape ELL literacy development highlighting practical implications for the classroom Reflection questions and a wealth of illustrative examples enhance the utility of this engaging tightly edited work **Reading First Activities, Grade 2** Jennifer Overend Prior,2004-03-23 Contains activities based on the United States Dept of Education s Reading First program
