courseware offers a comprehensive 1 day training program tailored for business and government professionals focusing on the practical application and understanding of Artificial Intelligence AI in their respective work environments This course is structured to provide a deeper insight into the fundamental concepts of human and Artificial Intelligence emphasizing the role of Machine Learning ML as a pivotal contributor to AI's growth Participants will explore the general definition of human

and AI delve into the concept of learning from experience and understand how this is integral to Machine Learning based on Tom Mitchell's explicit definition. The course also illuminates how AI is an essential component of Universal Design and the Fourth Industrial Revolution. A significant focus is given to the challenges posed by AI including a comparison of AI limitations against human systems and the ethical dilemmas AI presents. Participants will gain a comprehensive understanding of the risks associated with AI, typical funding sources for AI projects and an enumeration of AI's potential applications. Crucially, the course will demonstrate how AI, particularly Machine Learning, is set to enhance collaboration between humans and machines. It will also provide a forecast of future directions in this symbiotic relationship, outlining the evolving landscape of human-machine collaboration. This courseware educates for The EXIN BCS Artificial Intelligence Essentials, testing the fundamental concepts of AI. Follow-up modules on this course are The AI for Business and Government certification, the AI Brevet which was established by the Netherlands AI Coalition (NL AIC) as a standard for professionals who want to use Artificial Intelligence, and The EXIN BCS Artificial Intelligence Foundation which has a more IT technical perspective.
