who may have special needs or an above average interest in the topic However I recognize you will most likely be more interested in personal suggestions than a full listing of choices which will require time to investigate Accordingly I highlight the tools I have used and recommend Moreover I lay out my complete backup and syncing system which you are free to copy if it suits you Note I am a Windows user and this bias shows in parts of the guide Most of the concepts are independent of operating system and many of the recommended programs are available for Macs as well as Windows but some details e g the discussion of Windows Libraries and some highlighted software and services are Windows only I think if you are a Mac user you are already used to this common bias but I wish to make it clear before you decide to read this guide **Trading**
