Internet of Things Vulnerabilities and Recovery Strategies Faheem Syeed Masoodi, Alwi Bamhdi, Majid Ahmad Charoo, Zubair Masoodi, Arif Lattoo, Gousiya Hussain, 2024-07-26. The Internet of Things (IoT) is a widely distributed and networked system of interrelated and interacting computing devices and objects. Because of IoT's broad scope, it presents unique security problems ranging from unsecure devices to users vulnerable to hackers. Presenting cutting-edge research to meet these challenges, *Internet of Things Vulnerabilities and Recovery Strategies* presents models of attack on IoT systems and solutions to prevent such attacks. Examining the requirements to secure IoT systems, the book offers recovery strategies and addresses security concerns related to Data Routing, Data Integrity, Device Supervision, IoT Integration, Information Storage, IoT Performance. The book takes a holistic approach that encompasses visibility, segmentation, and protection. In addition to visual approaches and policy-driven measures, the book looks at developing secure and fault-tolerant IoT devices. It examines how to locate faults and presents mitigation strategies as well as security models to prevent and thwart hacking. The book also examines security issues related to IoT systems and device maintenance.

Malware Dimitris Gritzalis, Kim-Kwang Raymond Choo, Constantinos Patsakis, 2024-11-14. This book provides a holistic overview of the current state of the art and practice in malware research as well as the challenges of malware research from multiple angles. It also provides step-by-step guides in various practical problems such as unpacking real-world malware and dissecting it to collect and perform a forensic analysis. Similarly, it includes a guide on how to apply state-of-the-art Machine Learning methods to classify malware. Acknowledging that the latter is a serious trend in malware, one part of the book is devoted to providing the reader with the state of the art in Machine Learning methods in malware classification, highlighting the different approaches that are used for e.g. mobile malware samples and introducing the reader to the challenges that are faced when shifting from

a lab to production environment Modern malware is fueling a worldwide underground economy The research for this book is backed by theoretical models that simulate how malware propagates and how the spread could be mitigated The necessary mathematical foundations and probabilistic theoretical models are introduced and practical results are demonstrated to showcase the efficacy of such models in detecting and countering malware It presents an outline of the methods that malware authors use to evade detection This book also provides a thorough overview of the ecosystem its dynamics and the geopolitical implications are introduced The latter are complemented by a legal perspective from the African legislative efforts to allow the reader to understand the human and social impact of malware This book is designed mainly for researchers and advanced level computer science students trying to understand the current landscape in malware as well as applying artificial intelligence and machine learning in malware detection and classification Professionals who are searching for a perspective to streamline the challenges that arise when bringing lab solutions into a production environment and how to timely identify ransomware signals at scale will also want to purchase this book Beyond data protection experts who would like to understand how malware siphons private information experts from law enforcement authorities and the judiciary system who want to keep up with the recent developments will find this book valuable as well **Privacy Symposium 2024**

Sensor Technology for Smart Homes Juan Ye, Michael O'Grady, Oresti Banos, 2021-04-21 This Special Issue presents the recent advances in sensor technologies for smart homes including fiber Bragg grating FBG sensors for detecting the presence and number of occupants the Internet of things for monitoring CO2 concentration and designing a novel eye tracking system for monitoring and controlling a smart home and infrared thermal sensors for fall detection Such new explorations are pushing the boundary of sensing technologies and thus will have more profound implications for the future smart home Advanced machine learning and data mining algorithms have been proposed to address sensor failure appliance identification and human activity recognition in a home environment

These results will enable a promising sustainable deployment of sensing technologies A novel multi agent gamification system is proposed for managing tasks between household members and between families which demonstrate another dimension of future smart home application This Special Issue concludes with a review on sensors for human activity recognition This work paves the roadmap for deploying smart home systems in different socioeconomic contexts The whole Special Issue has significantly helped to shape our understanding of the strength implications and barriers of deploying long term sustainable sensor technologies for smart homes

Security in Smart Home Networks Yan Meng,Haojin Zhu,Xuemin (Sherman) Shen,2023-01-17 This book presents the security and privacy challenges of the smart home following the logic of terminal device voice interface application platform For each component the authors provide answers to the three questions 1 In the terminal device layer how to conduct cross layer privacy breach analysis and provide effective countermeasures 2 In the voice interface layer how to design effective and lightweight schemes to defend against voice spoofing 3 In the application layer how to design an effective anomaly detection system without breaching the application platform The authors conduct a thorough analysis of the security threats and challenges in each component of the smart home review the existing state of the art solutions proposed by other researchers and elaborate on proposed countermeasures This book aims to provide both security threats analysis and state of the art countermeasures for the smart home network
