Lalenis, V.D. Mamadouh, 2012-12-06 Inevitably at a panel discussion not too long ago comparing planning cultures the discussion turned on the issue of globalisation As a member of the panel this author asked those in the audience who lived and/or worked in a country different from their country of origin to raise their hands About half of the audience of well over one hundred academic teachers and researchers from all corners of the world the present author included did so Next he asked who had a spouse or partner from a country different from their country of origin to also raise their hands About half of the audience the present author included raised their hands This is the soft side of globalisation The soft side of globalisation is important Exchanges personal mobility international romances multi culturalism and multi lingualism inevitably meaning non native speakers struggling to keep up with native English speakers are part of the academic scene so much so that we can hardly imagine it to be otherwise These are not entirely new phenomena but they have become ever

more prominent relying on an ever more elaborate institutional infrastructure of exchange programmes international journals associations and the global conference industry It was at the AESOP Association of European Schools of Planning congress at Bmo in the Czech Republic in July 2000 that the plan for this book was hatched *De wereld volgens Maarten van Rossem* Maarten van Rossem,2009-10-28 Is het wel zo beroerd gesteld met Nederland als veel intellectuelen en opinieleiders beweren Maarten van Rossem demonstreert nuchter en realistisch dat al die somberheid niet terecht is In het essay Typisch Nederland waarin de culturele en historische eigenaardigheden van ons vaderland aan de orde komen laat hij overtuigend zien dat Nederland in vergelijkend perspectief misschien niet het beste land ter wereld is maar wel met de beste landen mee kan komen In de columns die hij de afgelopen twee jaar over Nederland schreef houdt hij kritisch afstand van de nationale depressie die de media het kabinet en de spraakmakende gemeente Nederland hebben aangepraat Van de plotselinge aandacht voor onze historische identiteit die ook voortkomt uit de nationale neerslachtigheid moet Van Rossem niets hebben Teneinde ons kleine leed maximaal te relativiseren schrijft hij in dit boek ook over aard en structuur van de wereldgeschiedenis een onderwerp dat de laatste jaren steeds meer in de mode is geraakt Daarmee contrasteert het opstel over zijn eigen leesgeschiedenis die begint met Suizebol en Bijdepink en eindigt met de Bekentenissen van Zeno Hij besluit met een beschouwing over de komende honderd jaar waarin duidelijk wordt dat pessimisme even onzinnig is als optimisme
