One Night Promised File:

The Secret Files: Bill Deblasio, The NYPD, and the Broken Promises of Police Reform Micheal Hayes, 2025-05-13 An unprecedented breakdown of the NYPD's powerful network of police unions pro police lawyers and top brass who work relentlessly to shield police officers from any real accountability For readers of long form hard hitting journalistic exposés like *We Own This City* a compelling look at how we do and don't hold police responsible in America by an award winning progressive reporter covering the NYPD police beat In 2018 reporter Michael Hayes uncovered a major story about how the NYPD was not only turning a blind eye to police misconduct but also allowing hundreds of officers with severe misconduct charges to remain on the force In the aftermath of that story then Mayor Bill de Blasio attempted to reform the department only to abandon his plans While de Blasio may have suffered a political setback it's New Yorkers who are the true victims of this failure to deliver accountability and transparency The state has a law that specifically prevents the public from learning about concealed police records New Yorkers are increasingly distrustful of the police after witnessing their loved ones being targeted brutalized and murdered with near impunity Hayes takes readers inside decades of police corruption and controversial laws chronicling the stories of the families and activists who have had enough He makes a compelling case for the limits of reform in the aftermath of the major Black Lives Matter rallies following the murder of George Floyd and growing calls to defund the police

A Promise to All Peter G. Anderson, 2012-07-19 Peter G Anderson first met Master Wong when he was a sixteen year old boy searching for answers To Anderson Master Wong possessed wisdom that seemed almost inhuman He saw everything felt everything and knew everything a gift that was respected without question due to Master Wongs incredible kindness and humanness With Master Wongs quiet guidance Andersons life began to change As Anderson grew into an adult he eventually lost contact with his mentor As he married built a business and had children he had no idea that one day he would reach an awakening that would lead him back to the powerful guidance of his once cherished advisor In his guidebook to help others find their own awareness and true purpose Anderson shares anecdotes that provide a poignant glimpse into his relationship with Master Wong and how he learned to recover his closeness with God his fellow man earth and most importantly with

himself Included is insight into how others can ask important questions find the real self avoid the lure of perfectionism and learn the right way to love A Promise to All reveals one mans compelling journey to the truth while encouraging others to leave old habits behind and replace them with a new awareness about themselves and those around them The Promise L.M. industrial production and service industries have become dominant many of the nation s largest employers are now in fields like retail food service logistics and hospitality These companies have turned to data driven surveillance technologies that operate over a vast distance enabling cheaper oversight of massive numbers of workers Data and Democracy at Work argues that companies often use new data driven technologies as a power resource or even a tool of class domination and that our labor laws allow them to do so Employers have established broad rights to use technology to gather data on workers and their performance to exclude others from accessing that data and to use that data to refine their managerial strategies Through these means companies have suppressed workers ability to organize and unionize thereby driving down wages and eroding working conditions Labor law today encourages employer dominance in many ways but labor law can also be reformed to become a tool for increased equity The COVID 19 pandemic and subsequent Great Resignation have indicated an increased political mobilization of the so called essential workers of the pandemic many of them service industry workers This book describes the necessary legal reforms to increase workers associational power and democratize workplace data establishing more balanced relationships between workers and employers and ensuring a brighter and more equitable future for us all
