Romantasy S Compare Customer Service:

Intonation in Romance Sónia Frota, Pilar Prieto, 2015-06-04 This book offers the first comprehensive description of the prosody of nine Romance languages that takes into account internal dialectal variation Teams of experts examine the prosody of Catalan French Friulian Italian Occitan Portuguese Romanian Sardinian and Spanish using the Autosegmental Metrical framework of intonational phonology and the Tones and Breaks Indices ToBI transcription system The chapters all share a common methodology based on a common Discourse Completion Task questionnaire and provide extensive empirical data The authors then analyse how intonation patterns work together with other grammatical means such as syntactic constructions and discourse particles in the linguistic marking of a varied set of sentence types and pragmatic meanings across Romance languages The ToBI prosodic systems and annotations proposed for each language are based both on a phonological analysis of the target language as well as on the shared goal of using ToBI analyses that are comparable across Romance languages This book will pave the way for more systematic typological comparisons of prosody across both Romance and non Romance languages A Romance of the Sea-serpent, Or, The Ichthyosaurus Eugene Batchelder, 1850

The Cambridge History of the Romance Languages: Volume 2, Contexts Martin Maiden, John Charles Smith, Adam Ledgeway, 2013-10-24 What is the origin of the Romance languages and how did they evolve When and how did they become different from Latin and from each other Volume 2 of The Cambridge History of the Romance Languages offers fresh and original reflections on the principal questions and issues in the comparative external histories of the Romance languages It is organised around the two key themes of influences and institutions exploring the fundamental influence of contact with and borrowing from other languages including Latin and the cultural and institutional forces at work in the establishment of standard languages and norms of correctness A perfect complement to the first volume it offers an external history of the Romance languages combining data and theory to produce new and revealing perspectives on the shaping of the Romance languages *Gender from Latin to Romance* Michele Loporcaro, 2018 This book explores grammatical gender in the Romance languages and dialects and its evolution from Latin Michele Loporcaro investigates the significant diversity found in the Romance varieties in this regard he draws on data from the Middle Ages to the present from all the Romance languages and dialects discussing examples from Romanian to Portuguese and crucially also focusing on less widely studied varieties such as Sursilvan Neapolitan and Asturian The investigation first reveals that several varieties display more complex systems than the binary masculine feminine contrast familiar from modern French or Italian Moreover it emerges that traditional accounts whereby neuter gender was lost in the spoken Latin of the late Empire cannot be correct instead the neuter gender underwent a range of different transformations from Late Latin onwards which are responsible for the different systems that can be observed today across the Romance languages The volume provides a detailed description of many of these systems which in turns reveals a wealth of fascinating data such as varieties where husbands are feminine and

others where wives are masculine dialects in which nouns overtly mark gender but only in certain syntactic contexts and one Romance variety Asturian in which it appears that grammatical gender has split into two concurrent systems The volume will appeal to linguists from a range of backgrounds including Romance linguistics historical linguistics typology and morphosyntax and is also of relevance to those working in sociology gender studies and psychology

Security Guard's Romance Chun Qiuyugong, 2019-11-12 The marriage is unfortunate my wife is cold to me day by day detests me as security guard detests me poor to betray me Not long after three or four peerless beauties took her place My luck began without warning

Wine Me, Dine Me, Dance Me, Romance Me Gene Hewett Ph.D., 2002-10-01 Wine Me Dine Me Dance Me Romance Me reads like an evolving collage of romantic experiences framed in poetic style In many ways the collection represents an autobiographical sketch in romance It begins by providing snapshots of the authors early relationships evolves to romantic accounts as viewed through the eyes of a fictional son and concludes with romantic descriptions provided by that sons daughter The collection has a traditional table of contents a second one titled Musical Inspiration and a third titled Photographic Images The second table of contents illustrates the authors desire to match specific majority rhythm and blues songs such as Aint No Way to each poem In the short run the author envisions that the collection will be made available in an electronic form b as a paperback and c for hardcover distribution In addition owing to the musical theme the author anticipates that the collection can be presented in audio book form In the long run the author anticipates that it may be possible to package the collection in a stage production format complete with a speaker background music and Power Point images with optional dance choreography The third table of contents shows the authors ability to enhance the spirit and mood of each poem by linking them to a digital image obtained from the corbisimage.com website The majority of the digital images were based upon floral themes such as Close Up View of a Pink Rose and landscape themes such as Wildflowers at Malibu Beach Several digital image selections such as Glass of Wine with Cork and Rosebuds departed from the floral landscape pattern in order to further highlight a unique mood

Romance Phonetics and Phonology Mark Gibson, Juana Gil Fernández, 2019 This book explores recurring topics in Romance phonetics and phonology Topics studied range from the low level mechanical processes involved in speech production and perception to high level representation and computation based on data from across the Romance language family including from varieties that are less widely studied
