Committee on Commerce, Science, and Transportation, 2014 *Guide to the Healthcare Industry* Karen L. Pellegrin, 2024-05-08 Healthcare's advancements are undeniable but delivering good value remains a challenge. Costs rise while quality improvements lag leading some to call for removing business from healthcare entirely. This book offers a different perspective inviting students and professionals to consider the potential of evidence-based business practices to improve healthcare and reduce costs. This engaging guide explores the unique complexities of the healthcare industry highlighting why it's ripe for disruption through innovative business solutions. By delving into how traditional models might not fit healthcare perfectly the book paves the way for understanding how better business practices can unlock the potential for higher quality care at a lower cost *Social TV* Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment Media Industries. On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most watched Roast in Comedy Central history. The Trump Roast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised but failed to deliver a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day content streams. The legacy of Social TV then is the further embedding of media and promotional material onto every screen and into every moment of life *The eBay Price Guide* Julia L. Wilkinson, 2006 Provides lists of selling prices of items found on eBay in such categories as antiques, boats, books, cameras, coins, collectibles, dolls, DVDs, real estate, stamps, tickets, and video games *The Complete Idiot's Guide to Starting an Online Business* Frank Fiore, 2000 The Complete Idiot's Guide to Starting an Online Business shows why and how to establish company Web sites and Intranets.
