One For The Road Revised Edition:

China's New Global Initiatives Theodor Tudoroiu, 2025-08-12 This book provides the first in depth analysis of China's Global Initiatives launched between 2021 and 2023 as elements of a coherent strategy intended to construct a Chinese led international order This highly ambitious enterprise was initiated in 2013 and has relied on the Chinese socialization of the Global South political elites which uses the prestige infrastructure projects of the Belt and Road Initiative BRI as material incentives In recent years however China's economic problems major difficulties with the repayment of BRI infrastructure loans and the Western infrastructure counteroffensive have triggered a serious crisis that has significantly reduced the effectiveness of the socialization process This book argues that the creation of the Global Development Initiative Global Security Initiative Global Civilization Initiative and Global Artificial Intelligence Governance Initiative as well as the recalibration of the Belt and Road Initiative represents a response to this crisis The new Global Initiatives complement and partially replace the old BRI by extending the repertoire of Chinese policies and actions to the domains of non infrastructure development assistance international security civilizationism and AI based industrial revolution If successful they have the potential to bring China's international order to maturity which will result in the emergence of a bipolar international system

setback as well as earlier policy missteps like demonetization Answering all these questions and raising many more Jha s deeply researched and cogently argued account examines the new normal of a transactional even predatory geoeconomic climate where central banks are fast running out of answers and heavily indebted governments are desperately searching for silver bullets This work of extraordinary depth and ambition tracing the destinies of the major economic centres of the world provides a nuanced if sobering context to the reader as it suggests what India must do to rise in this grave new pandemic ridden world
