Nicolas Forgue,2018-11-11 The morning is the first moment of the day Every morning is a new day that begins In this day that begins you have the choice to start it well or to start it in bad conditions The productive morning is the first steps of the day from the awakening This productive morning routine is the one that will allow you to do activities that you enjoy before you even start your work day it s the one that will allow you to see your whole day again by starting on the best possible bases is the one that will allow you to be effective in the morning to attack the rest of the day serenely it is still the one that will offer you a healthy lifestyle that you would not have suspected before The morning can change your daily the morning can change all your days By getting up in the morning and following a routine to start your day by organizing the most difficult tasks from the beginning of the day or by taking habits that will give you energy you organize your day to follow the rhythm that will boost you Too many people leave this moment alone thinking that it does not matter simply because they have not experienced the benefits of a successful morning Too many people destroy part of their day because of a missed awakening Now you have to choose between staying in a difficult morning routine that does not bring you real values added over the rest of your day and even your lifestyle or make the choice to change your life to live better Change your day see your everyday life differently Own in the morning to own your day this is the motto The future belongs to those who get up early as self esteem belongs to those who get up early as success belongs to those who get up early **The Miracle**

Morning Routine Daily Journal Miracle Journals,2020-11-14 Miracle Morning Routine JOURNAL Thanks to Hal Elrod and his best selling book The Miracle Morning mornings and lives around the world have been transformed forever In the book Hal goes into his findings from studying the most successful people s morning routines He takes note of six different activities many of them do and calls them SAVERS Many successful people practice at least four of six of these activities but rarely do all six So what happens if you do all six That s for you to find out Drink a glass of cold water then Silence Meditation Affirmation Visualizations Exercise Reading ScribingThe Miracle Morning Routine Journal 1 Silence Meditation 10 Minutes The first thing to do is meditate for 10 minutes This can be silent meditation or guided meditation There are a number of documented benefits to meditation but doing this will give you added calm focus and concentration throughout the day There are also many phone Apps that can help you get started so don t wait 2 Journaling Part 1 5 Minutes This is made

up of two parts Write down three things that you are grateful for today and 3 goals for the day These don't have to be big elaborate things They can be small and simple Also keep the goals just to the day 3 Affirmations or Prayer 5 Minutes Affirmations are positive statements that can help you to challenge and overcome self sabotaging and negative thoughts When you repeat them often and believe in them you can start to make positive changes They are an extremely powerful way to rewire how your brain thinks thus changing how you feel and your external physical world Choose an affirmation that is right for you and practice it for 5 minutes in silence My favorite affirmation is I can be what I will do be 4 Visualizations 5 Minutes Visualizations are similar to meditating The difference In meditation you do your best to think about nothing except your breathing In visualization you envision yourself accomplishing your goals The goal here is to visualize yourself doing and living your affirmation 5 Scribing Journaling Part 2 15 30 Minutes Now that the mind is focused take the next 15 30 minutes to write freely This can be free writing about random things or structure writing it doesn't matter Sometimes it is simply helpful to empty out your thoughts on paper so that you have room during the day to learn and retain new things It can be a way of house cleaning 6 Reading 15 30 Minutes Reading is extremely important for all people It is a way we feed our brain what it needs to be happy It is known that some of the most famous and successful people in the world ie Bill Gates Warren Buffet and more spend about 80% of their working days reading and learning new information However that might be overkill for most people just 15 30 minutes every day will make significant difference 7 Exercising 10 30 minutes Maybe this means going for a morning run before the sun wakes you or doing some yoga It doesn't have to be anything rigorous but some kind of activity is good
