Primary PE: Unlocking the Potential Anne Williams, Joanne Cliffe, 2011-05-16 This book aims to address some of the aspects of primary physical education about which there is currently a dearth of high quality texts. It arises from several contextual elements that create a need for something a little different from books currently on offer. Most of these offer guidance on content and teaching skills across the activities of the National Curriculum together with supplementary information about key issues and processes for example assessing pupils or including those with special needs. This proposal focuses on learning about primary PE and its potential to contribute not only as a discrete curriculum subject but also across the whole curriculum and to some of the many strategies and initiatives that have been set up to enhance primary practice and achievement. Topics have been selected as the focus for the chapters in this book not only for their current significance within strategies and initiatives but for their potential to contribute to the enhancement of the curriculum in the longer term and particularly in the context of the recommendations of the Rose review and the imminent revisions to the primary national curriculum. **The Scottish Educational Journal**, 1954 Elite Sport and Sport-for-All Richard Bailey, Margaret

Talbot, 2015-08-11 Sport is often perceived as being divided into two separate domains: mass participation and elite. In many countries, policy and funding in these two fields are managed by separate agencies and investment is often seen as a choice between the two. Elite Sport and Sport for All explores the points of connection and sources of tension between elite and mass participation sport. The book's multi-disciplinary and international line-up of contributors seeks to define, examine and develop solutions to this problematic relationship. Drawing on research and case studies from around the world with examples from Denmark, Canada, South Africa and Israel, the book explores key contemporary issues including: does effective talent identification require depth of participation? do elite performances inspire greater participation? the role of the Paralympic movement in mass participation and elite sport and the economic aspects of their co-existence. The first study of its kind, Elite Sport and Sport for All addresses a central dichotomy in sport policy and as such is important reading for all students, researchers, policy makers or administrators working in sport development and policy. Folens GCSE P.E. Julie Walmsley, 2003 Bright and lively textbook written specifically for the EDEXCEL GCSE in P.E. 1827 and Short Course 3827 with the aim of helping lower achieving students (Grade C, D or below) obtain a better grasp of each P.E. topic and improve their examination performance. **Oxford School Thesaurus eBook** Oxford Dictionaries, 2023-04-20 An important new edition of the bestselling Oxford School Thesaurus with new words on contemporary topics such as technology, climate change and the Covid 19 pandemic. Focused coverage of words, synonyms and antonyms help to improve writing skills for creative writing and non-fiction.
