New Perspectives On Hegels Philosophy Of Religion:

New Perspectives on Hegel's Philosophy of Religion David Kolb, 1992-01-01 Hegel's ideas about the nature of religion its history and its relation to philosophy have had great influence on his friends and foes alike Relying on the new critical edition of Hegel's separate lecture courses the essays in this book provide new insights into Hegel's ideas and challenge the way we think today Crucial topics are discussed Is Hegel a Christian Does the political community absorb religion How does religion relate to philosophy What does Hegel have to say about evil and tragedy about the persistence of mythology about mysticism The book also touches on the relation of Hegel's thoughts to deconstructive insights into religion

After the Death of God Espen Hammer, 2025-03-22 A fresh history of nineteenth century philosophy's many ideas about secularization The secularization thesis which held that religious belief would gradually yield to rationality has been thoroughly debunked What then can we learn from philosophers for whom the death of God seemed so imminent In this book Espen Hammer offers a sweeping analysis of secularization in nineteenth century German philosophy arguing that the persistence of religion rather than its absence animated this tradition Hammer shows that Kant Hegel Feuerbach Marx and Nietzsche each in their own way sought to preserve and transform religion's ethical and communal aspirations for modern life A renewed appreciation for this tradition's generous thought Hammer argues can help us chart a path through needlessly destructive conflicts between secularists and fundamentalists today

Hegel's Interpretation of the Religions of the World Jon Stewart, 2018-09-12 In his *Lectures on the Philosophy of Religion* Hegel treats the religions of the world under the rubric the determinate religion This is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do In *Hegel's Interpretation of the Religions of the World* Jon Stewart argues that Hegel's rich analyses of Buddhism Hinduism Zoroastrianism Judaism Egyptian and Greek polytheism and the Roman religion are not simply irrelevant historical material as is often thought Instead they play a central role in Hegel's argument for what he regards as the truth of Christianity Hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history These conceptions might at first glance appear random and chaotic but there is Hegel claims a discernible logic in them Simultaneously a theory of mythology history and philosophical anthropology Hegel's account of the world religions goes far beyond the field of philosophy of religion The controversial

issues surrounding his treatment of the non European religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century **Indiscretion** Thomas A. Carlson,1999-02-02 How can one think and name an inconceivable and ineffable God Christian mystics have approached the problem by speaking of God using negative language devices such as grammatical negation and the rhetoric of darkness or unknowing and their efforts have fascinated contemporary scholars In this strikingly original work Thomas A Carlson reinterprets premodern approaches to God s ineffability and postmodern approaches to the mystery of the human subject in light of one another The recent interest in mystical theological traditions Carlson argues is best understood in relation to contemporary philosophy s emphasis on the idea of human finitude and mortality Combining both historical research in theology from Pseudo Dionysius to Aquinas to Eckhart and contemporary philosophical analysis from Hegel and Nietzsche to Heidegger Derrida and Marion *Indiscretion* will interest philosophers theologians and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity *A Hegelian Theory of Divine Revelation* Jason Barton,2025-09-26 This book explores what G W F Hegel meant by God Was he referring to the Lutheran conception of the Christian God Or was he referring to a heterodox conception of God more in line with his philosophical speculations Through a close reading of Hegel s Lectures on the Philosophy of Religion this book offers a detailed answer to this question It contends that Hegel assigns two meanings to the concept of God an inward facing perspective and an outward facing perspective From the inward facing perspective Hegel ventured to authentically capture how world historical religions respectively portray the divine from their own conceptual representational and practical positions From the outward facing perspective Hegel identifies divinity with absolute spirit in its odyssey like movement toward self recognition The concept of God for Hegel encompasses both of these meanings It is argued that one cannot approximate an accurate comprehension of Hegel s God without analyzing divine revelation In contrast to previous books this book firmly grounds Hegel s religious phenomenology in historical and logical factors Through such a grounding *A Hegelian Theory of Divine Revelation* attempts to achieve a clarified understanding of the character of Hegelian divine revelation and ultimately a clarified understanding of Hegel s concept of God This book is essential reading for all scholars and researchers of German idealism and of the philosophy of religion especially those focusing on the thought of G W F Hegel *New Perspectives on Hegel's Philosophy* Andrew Alexander Davis,Sebastian Rand,2025-07-24 This collection of new perspectives on Hegel s Philosophy of Right breaks down some of the most stubborn barriers between the book and its readers From its polemical preface to its closing ruminations on the state and world history Hegel s seminal text can appear antiquated and conservative to even the most motivated reader These essays remove those obstacles by demonstrating how radical many of his reflections on politics and ethics remain some 200 years after its publication *New Perspectives on Hegel s Philosophy of Right* works through Hegel s ideas in two distinct stages Its first half explains how a close reading of contested sections can reveal new possibilities for the

interpretation of key issues like private property family conscience patriotism and the executive branch covering important topics from each of the three major sections of Hegel's text The book's second half then considers Hegel's work in dialogue with contemporary political thought legal studies critical theory economic theory and queer studies These essays show the rich interplay of Hegelian concepts and insights with pressing contemporary concerns proving their continued relevance Maintaining focus on how Hegel's work speaks to us today this book offers readers an invaluable set of launchpoints to explore his lasting contribution to both the new and perennial concerns of philosophy *"Die Morgenröte des Geistes"*

Kaiyuan Hong, 2025-02-07 Kein anderer Denker der klassischen deutschen Philosophie hat sich so wie Hegel mit dem Orient beschäftigt Hegels Konzeption des Orients ist aber nicht leicht zu erfassen und darzustellen Denn die Rekonstruktion wirft eine ganze Reihe schwieriger methodischer und sachlicher Probleme auf Neben der nicht unproblematischen Textgrundlage den Nachschriften zu seinen Berliner Vorlesungen betrifft dies vor allem den systematischen Stellenwert des Orients in der Geschichte des Geistes Berühmt ist Hegels These dass es im Orient noch keine Freiheit gab und sich der Geist zum Wissen seiner selbst im weltgeschichtlichen Gang von Ost nach West entwickelt hat Hegel hat diese historische Entwicklung jedoch so gut wie nie eigens thematisiert Dieses Desiderat erkannt zu haben und Hegels implizite Annahmen in ihrer Komplexität zu diskutieren ist die Leistung dieser umfassenden wie auch subtilen Studie Am Schluss ordnet der Autor den Ertrag seiner Analyse in die aktuelle Eurozentrismus Diskussion ein **Irreconcilable Differences?** Jason C. Robinson, David

Peck, 2015-03-17 What if philosophy theology and science spent a little more time together These fields often seem at odds butting metaphysical heads Instead of talking at how about talking with one another This book engages three academic disciplines distinct yet sharing much in common in a slice of conversation and community in which participants have aimed at validating the other and the way the other sees the world The result is a collection of essays united by a thread that can be hard to find in academia In bringing together a wide range of contributors on a project that at first seemed unlikely *Irreconcilable Differences* is also a testament to the spirit of cooperation and hard work evidence that small acts and events can make a big difference and that sometimes all you need in order to make something good happen is an idea with a little support along the way The editors of this collection are hopeful that its contributors and readers will keep looking for ways to bridge academic social and political gaps We need to forge relationships based on personal knowledge and proper confidence seeking to make meaningful claims in an increasingly complex world Metaphysik Friedrich Hermann, 2011 Hegel's

God William Desmond, 2017-07-05 Hegel is widely regarded as one of the major thinkers of the modern era if not the entire tradition of philosophy Hegel like many philosophers took seriously traditional philosophical perplexities about God but unlike many modern philosophers he claimed to take the specific characteristic of Christianity into account in his philosophizing This book presents a new examination interpretation and critical engagement with Hegel's philosophy of religion and with his concept of God in particular William Desmond explores the distinctive stresses of Hegel's approach to

God the influence it has exerted and the fundamental problems that his approach exhibits **Panentheism--The Other God of the Philosophers** John W. Cooper, 2006-11-01 Panentheism has gained popularity among contemporary thinkers This belief system explains that all is in God as a soul is related to a body so God is related to the world In Panentheism The Other God of the Philosophers philosopher and theologian John Cooper traces the growth and evolution of this intricate theology from Plotinus to Alfred North Whitehead to the present This landmark book the first complete history of panentheism written in English explores the subject through the lens of various thinkers such as Plato Jürgen Moltmann Paul Tillich Wolfhart Pannenberg and Charles Hartshorne and discusses how panentheism has influenced liberation feminist and ecological theologies Cooper not only sketches the evolution of panentheism but also critiques it ultimately he offers a defense of classical theism This book is for readers who care deeply about theology and think seriously about their faith

Hegel and Theology Martin J. De Nys, 2009-05-24 Hegel makes philosophical proposals concerning religion and Christianity that demand critical reflection from contemporary theology Hegel and Theology discusses the role that an understanding of religion and Christianity play in the development of Hegel's idea of philosophy Hegel's treatment of religious experience the problem of the relation between the world and God and the issue of God's transcendence These discussions provide a framework for considering Hegel's understandings of specific Christian mysteries De Nys here considers the Hegelian conception of the Trinity and the mysteries of Creation Incarnation and reconciled indwelling in connection with the persons of the Trinity Hegel and Theology concludes by examining critical problems that belong in an immanent way to Hegel's essential proposals about religion and Christianity as well as contributions that Hegel makes to contemporary theological inquiry *Nineteenth-Century Lutheran Theologians* Matthew L. Becker, Günter Frank, Ute Lotz-Heumann, Barbara Mahlmann-Bauer, Johannes Schilling, Günther Wassilowsky, Siegrid Westphal, Tarald Rasmussen, Mathijs Lamberigts, Bruce Gordon, David M. Whitford, 2015-12-09 This collection of essays a companion volume to the book *Twentieth Century Lutheran Theologians* Vandenhoeck Ruprecht 2013 examines important nineteenth century figures from the perspective of contemporary European and North American scholars Each essay provides an overview of the life and central ideas of a key Lutheran Protestant theologian who has had a significant impact on theological reflection down to the present The focus here is on those thinkers who were active between 1799 the year when Schleiermacher's *Speeches* appeared and the First World War These are individuals who deserve repeated examination whose insights are still worth pondering today and whose theological positions help us to understand better where contemporary theology has come from Karl Barth All of the essays were initiated by the journal *Lutheran Quarterly* in order to assess our theological heritage as we move further into a new millennium The goal of the authors each a leading theologian has been to describe a given thinker's life and vocation and how that person's work continues to impact theology today **Experience and Spirit** Dale M. Schlitt, 2007 Hegel's philosophy of religion is a philosophical theology in which God is conceived as a movement of inclusive

divine subjectivity ultimately God inclusive of the world For Hegel this inclusive divine subjectivity took the form of a movement of conceptual thought In an effort to work with Hegel while going beyond him Experience and Spirit presents God as a movement of inclusive divine subjectivity however that movement is understood to be not one of thought but of enriching experience and thus of spirit This argument in favor of a renewed understanding of Hegel s true infinite proceeds in three major steps first a consideration of Hegel s own problematic proposal second the elaboration of a fuller and more contemporary notion of experience and third three constructive phenomenological and philosophical reflections on basic questions in philosophical theology namely the experience of God speaking about God and the notions of evil freedom and mystery In the end Experience and Spirit proposes a philosophy of generosity both human and divine *God and the Self in Hegel* Paolo Diego Bubbio,2017-06-29 *God and the Self in Hegel* proposes a reconstruction of Hegel s conception of God and analyzes the significance of this reading for Hegel s idealistic metaphysics Paolo Diego Bubbio argues that in Hegel s view subjectivism the tenet that there is no underlying true reality that exists independently of the activity of the cognitive agent can be avoided and content can be restored to religion only to the extent that God is understood in God s relation to human beings and human beings are understood in their relation to God Focusing on traditional problems in theology and the philosophy of religion such as the ontological argument for the existence of God the Trinity and the death of God Bubbio shows the relevance of Hegel s view of religion and God for his broader philosophical strategy In this account as a response to the fundamental Kantian challenge of how to conceive the mind world relation without setting mind over and against the world Hegel has found a way of overcoming subjectivism in both philosophy and religion *From Darkness To Light* Igal Halfin,2000-07-15 In conjunction with Studies of the Harriman InstituteIn this interdisciplinary and controversial work Igal Halfin looks at Marxist theory in a new light attempting to break down the divisions between history philosophy and literary theory His approach is methodological combining intellectual and social history to argue that if we are to take the Bolshevik revolutionary experiment seriously we have to examine carefully the ideological presupposition of both communist ideological texts and the archival documents that social historians believe truly reflect lived experience in order to see what effects these texts had on reality Igal Halfin aims to turn Marxism class and consciousness from subjects of analysis to its objects *From Darkness to Light* begins by examining the Marxist philosophy of history as understood by the Russian revolutionary movement Halfin argues that the Soviet government took its cues to how it could bring about a classless society from a peculiar blending of eschatological thinking and modern techniques of power Halfin then offers a case study of the Bolshevik attempt in the 1920s to create the Communist New Man by amalgamating the characteristics of the intellectual and the worker in order to eradicate the petit bourgeois traits attributed by the regime to the pre revolutionary individualistic and decadent student Halfin s conclusions raise important questions about Marxist theory as it relates to class historical progress and communism itself His approach suggests that proletarianization should be understood not as a

change in the social composition of the student body but as the introduction of the language of class into the universities Through the examination of the process of the literary construction of class identity Halfin concludes that the student class affiliation in the Soviet Union of the 1920s was not simply a matter of social origins but of students ability using a set of ritualized procedures to defend their claims to a working class identity Halfin s conclusions raise important questions about Marxist theory as it relates to class historical progress and communism itself *Eclipse of Grace* Nicholas

Adams,2013-02-19 *Eclipse of Grace* offers original insights into the roots of modern theology by introducing systematic theologians and Christian ethicists to Hegel through a focus on three of his seminal texts *Phenomenology of Spirit* *Science of Logic* and *Lectures on the Philosophy of Religion* Presents brilliant and original insights into Hegel s significance for modern theology Argues that theologically Hegel has been misconstrued and that much more can be gained by focusing on the logic that he develops out of an engagement with Christian doctrines Features an original structure organized as a set of commentaries on individual Hegel texts and not just presenting overviews of his entire corpus Offers detailed engagement with Hegel s texts rather than relying on generalizations about Hegelian philosophy Provides an illuminating accessible and lucid account of the thinking of the major figures in modern German philosophy and theology **Hegel** Kipton E.

Jensen,2012-03-15 This manuscript provides a revisionist reading of Hegel s 1802 essay *Faith and Knowledge* in which he critiques the various reconciliations of faith and reason proposed by his immediate predecessors and contemporary faith philosophers namely Kant Jacobi Schleiermacher and Fichte Hegel s agonistic interpretation of these reflective philosophers of subjectivity who he reads as settling for a form of reason that is no longer worthy of the name and a version of faith that no longer seems worth the bother not only demonstrates his growing facility with the dialectical method for which he is best known but it also anticipates his own speculative reconciliation of faith and reason To view Hegel s reading of his predecessors as a series of misreadings which is not uncommon among scholars of 19th century German philosophy misses the most instructive aspect of this early but formative essay Hegel who was viewed by others if not also by himself as a philosophical latecomer appropriated the thought of his precursors with an eye toward overcoming them **The Highway**

of Despair Robyn Marasco,2015-03-24 Hegel s highway of despair introduced in his *Phenomenology of Spirit* is the tortured path traveled by natural consciousness on its way to freedom Despair the passionate residue of Hegelian critique also indicates fugitive opportunities for freedom and preserves the principle of hope against all hope Analyzing the works of an eclectic cast of thinkers Robyn Marasco considers the dynamism of despair as a critical passion reckoning with the forms of historical life forged along Hegel s highway *The Highway of Despair* follows Theodor Adorno Georges Bataille and Frantz Fanon as they each read resist and reconfigure a strand of thought in Hegel s *Phenomenology of Spirit* Confronting the twentieth century collapse of a certain revolutionary dialectic these thinkers struggle to revalue critical philosophy and recast Left Hegelianism within the contexts of genocidal racism world war and colonial domination Each thinker also re

centers the role of passion in critique Arguing against more recent trends in critical theory that promise an escape from despair Marasco shows how passion frustrates the resolutions of reason and faith Embracing the extremism of what Marx in the spirit of Hegel called the ruthless critique of everything existing she affirms the contemporary purchase of radical critical theory resulting in a passionate approach to political thought
