Lesson Study Research and Practice in Mathematics Education Lynn C. Hart, Alice S. Alston, Aki Murata, 2011-01-11 Lesson study is a professional development process that teachers engage in to systematically examine their practice with the goal of becoming more effective Originating in Japan lesson study has gained significant momentum in the mathematics education community in recent years As a process for professional development lesson study became highly visible when it was proposed as a means of supporting the common practice of promoting better teaching by disseminating documents like standards benchmarks and nationally validated curricula While the body of knowledge about lesson study is growing it remains somewhat elusive and composed of discrete research endeavors As a new research area there is no coherent knowledge base yet This book will contribute to the field bringing the work of researchers and practitioners together to create a resource for extant work This book describes several aspects of Lesson Study amongst others it gives an historical overview of the concept it addresses issues related to learning and teaching mathematics it looks at the role of the teacher in the process The last two sections of the book look at how lesson Study can be used with preservice mathematics teachers and at university mathematics methods teaching

Hands Down, Speak Out Kassia Omohundro Wedekind, Christy Hermann Thompson, 2023-10-10 Math coach Kassia Omohundro Wedekind and literacy coach Christy Hermann Thompson have spent years comparing notes on how to build effective classroom communities across the content areas How they wondered can we lay the groundwork for classroom conversations that are less teacher directed and more conducive to student to student dialogue Their answers start with Hands Down Conversations an innovative discourse structure in which students ideas and voices take the lead while teachers focus on listening and facilitating In addition to classroom stories and examples Christy and Kassia provide 28 micro lessons designed to help K 5 students develop and exercise their speaking and listening muscles Inside Hands Down Speak Out you will learn how to Build talk communities that are accessible to everyone especially those whose voices are often traditionally left out of classroom discourse Analyze classroom conversations in order to plan next steps for developing the classroom talk community Plan and facilitate three types of conversations across literacy and math Christy and Kassia believe that the development of dialogue skills is worth the investment of time not only because it has the power to deepen our understanding of literacy and mathematics but also to deepen our understanding of ourselves our communities and the world
