

Paper Weaving

(art + history); (art + social studies);
(art + math)

Weaving is one of the most ancient forms of human creativity. Baskets and textiles would not have been possible without weaving. This project will give students experience working with the basic concept of weaving and is a supportive activity for Native American, Mexican and other cultural studies. The process of measuring and counting the weave will also strengthen math skills.

Grade Levels: 3-8

Teacher instructions and materials based on a class of 25 students. Adjust as needed.

Preparation

1. Prepare a sampler(s) ahead of time to use as a visual reference explaining the parts of the loom and the weaving process.

2. introduce weaving terminology:

Weaving — The process of forming cloth or fabric on a loom by interlacing yarns or threads (or, as in this case, paper).

Loom — A frame for weaving yarn or thread into cloth or fabric.

Warp — Threads running lengthwise on the loom. The warp is placed on the loom prior to beginning the weaving process.

Weft — Threads that are weaved across the warp threads to form the web.

Web — The cloth or fabric produced by weaving.

Process

1. Students begin by making the loom and warp from a sheet of black construction paper. Fold sheet in half, with a graphite pencil, lightly draw a line about one inch from the open end of the folded paper. This defines the boundary where the cutting will need to stop.
2. From the fold, make irregular cuts up to the line. Cuts can be curvy, wavy, jagged or even created with decorative edge scissors. Unfold the sheet and lay it flat. This will serve as the "warp" and the "loom."

Author Bio Publisher Introduction Traditional cane basket weaving Basket work basket weaving or making containers out of
cane is possibly one of the earliest crafts known to man Archaeologists have found traces in digs more than 7 000 years old in
the Middle East and anywhere where ancient civilizations settled These vestiges of baskets showed that these people used
baskets as the molds for clay cooking pots That was because the imprint of the basket weave showed clearly on the clay
Plaited basket work has also been found in the Nile Delta some of which date back as early as 8000 BC Many museums all
over the world have a priceless collection of engine basket work usually shown along with ancient and early poetry and the
common factor seems to be that baskets have always been made of any material available that is pliable native and the
design and the type is going to be largely dependent on the availability of the material The moment anybody talks about a
basket you subconsciously associated with bringing home the shopping as these are nearly always used for carrying or
holding things In fact I would not be surprised if you have one or 2 of these woven examples in your own house in the shape
of lobster pots especially if you are a looking fisherman potato baskets to hold vegetables especially if you are a farmer
decorative baskets for crediting a wine bottle containers to hold flowers and fruit containers for your table to hold bread rolls
wicker baskets waste paper baskets work baskets lampshades baby cribs pet baskets picnic campers and houseplant holders
The uses of such baskets are global and infinite bound only by your creativity and imagination This book is going to tell you
all about how you can introduce yourself to this new satisfying craft and start basket weaving when you have some leisurely
time and energy over the weekend You are definitely not going to be disappointed at the really attractive and soul satisfying
final product and who knows this may be a start of a beautiful new business The Art of Paper Weaving Anna

Philosophy of Material Culture Beth Preston, 2013 This book focuses on material culture as a subject of philosophical inquiry and promotes the philosophical study of material culture by articulating some of the central and difficult issues raised by this topic and providing innovative solutions to them most notably an account of improvised action and a non intentionalist account of function in material culture Preston argues that material culture essentially involves activities of production and use she therefore adopts an action theoretic foundation for a philosophy of material culture Part 1 illustrates this foundation through a critique revision and extension of existing philosophical theories of action Part 2 investigates a salient feature of material culture itself its functionality A basic account of function in material culture is constructed by revising and extending existing theories of biological function to fit the cultural case Here the adjustments are for the most part necessitated by special features of function in material culture These two parts of the project are held together by a trio of overarching themes the relationship between individual and society the problem of centralized control and creativity
