Foundations of Information Literacy Natalie Greene Taylor,Paul T. Jaeger,2021-11-15 It is not hyperbole to conclude that in today's world information literacy is essential for survival and success and also that if left unchecked the social consequences of widespread misinformation and information illiteracy will only continue to grow more dire Thus its study must be at the core of every education But while many books have been written on information literacy this text is the first to examine information literacy from a cross national cross cultural and cross institutional perspective From this book readers will learn about information literacy in a wide variety of contexts including academic and school libraries public libraries special libraries and archives through research and literature that has previously been siloed in specialized publications come to understand why information literacy is not just an issue of information and technology but also a broader community and societal issue get an historical overview of advertising propaganda disinformation misinformation and illiteracy gain knowledge of both applied strategies for working with individuals and for addressing the issues in community contexts find methods for combating urgent societal ills caused and exacerbated by misinformation and get tools and techniques for advocacy activism and self reflection

throughout one's career **Handbuch Informationskompetenz** Wilfried Sühl-Strohmenger, 2016-03-07 Das Handbuch bietet einen fundierten und breiten Überblick über neue Konzepte zur Informationskompetenz aus der Sicht der Bibliotheks- und Informationswissenschaft sowie der Hochschuldidaktik und der Wissenschaftspolitik. Es enthält Beiträge zu Strategien und praktischen Realisierungen der Förderung von Informationskompetenz in Vorschule, Schule, Studium und wissenschaftlicher Forschung. Der lernerorientierten und nutzorientierten Gestaltung dieser Angebote durch Infrastrukturen, Beratungs- und Serviceangebote sowie durch didaktisch maßgeschneiderte Planungen kommt besondere Bedeutung zu. Die Entwicklungen der Informationskompetenz in Deutschland, Großbritannien, Österreich und der Schweiz werden jeweils mit speziellen Beiträgen dargestellt *Information Literacy and Libraries in the Age of Fake News* Denise E. Agosto, 2018-10-12 Going beyond the fake news problem, this book tackles the broader issue of teaching library users of all types how to become more critical consumers and sharers of information. As a public school or academic librarian or educator, you can help library users to become more conscious and responsible consumers of information. As you read, you will gain a better understanding and appreciation of the core concepts involved in promoting critical information literacy, such as information ethics, media literacy, and civic education. You will also learn the history of fake news and come away with practical ideas in mind for strategies to apply in your library. Chapters contributed by leading experts in public, academic, and school library services are written in plain, everyday language that librarians and library school students can easily understand and relate to their own experiences as information users, especially their experiences in social media and other online venues where sharing false information takes only a click **Handbook of Research on Emerging Trends and Technologies in Librarianship** Ekoja, Innocent Isa, Ogbomo, Esoswo Francisca, Okuonghae, Omorodion, 2022-01-07 A fundamental dynamism of the library is its continuous adoption of trending technologies and innovations for enhanced service delivery. To meet the needs of library users in the Fourth Industrial Revolution, an era characterized by digital revolution, knowledge economy, globalization, and information explosion, libraries have embraced innovations and novel technologies such as artificial intelligence, blockchain, social media, and the Internet of Things (IoT). The Handbook of Research on Emerging Trends and Technologies in Librarianship documents current research findings and theoretical studies focused on innovations and technologies used in contemporary libraries. This book provides relevant models, theoretical frameworks, the latest empirical research findings, and sound theoretical research regarding the use of novel technologies in libraries. Covering topics such as digital competitive advantage, smart governance, and social media, this book is an excellent resource for librarians, archivists, library associations, and committees, researchers, academicians, students, faculty of higher education, computer scientists, programmers, and professionals **Maturity and Innovation in Digital Libraries** Milena Dobрева, Annika Hinze, Maja Žumer, 2018-11-14 This book constitutes the refereed proceedings of the 20th International Conference on Asia Pacific Digital Libraries (ICADL 2018) held in Hamilton, New Zealand, in November 2018. volume were carefully reviewed and selected from 77 submissions The papers were organized in topical sections named topic modeling and semantic analysis social media web and news heritage and localization user experience digital library technology and use cases and digital librarianship Resources in Education ,1999 *Exploring New Roles for Librarians* Lisa Federer,2022-05-31 Librarians have been providing support to researchers for many years typically with a focus on responding to researchers needs for access to the existing literature However librarians skills and expertise make them uniquely suited to provide a wide range of assistance to researchers across the entire research process from conception of the research question to archiving of collected data at the project s conclusion In response to increasingly stringent demands on researchers to share their data and as computationally intensive and primarily data driven scientific methods begin to take the place of traditional lab based research the research informationist has emerged as a new information profession With a background in library and information sciences as well as expertise in best practices for data management grant funder policies and informatics tools the research informationist is capable of implementing a full suite of research support services This book will discuss how the research informationist role has developed out of the previously established clinical informationist model and how it expands on the model of embedded librarianship The book will also examine core competencies for the successful research informationist and the training and preparation necessary for students in library and information sciences programs as well as currently practicing librarians Finally this book will consider how research informationists can form collaborative partnerships with research teams and build their services outside the walls of the library citing practical examples of the types of support research informationists can offer **Practical Steps to Digital Research** Deborah B. Stanley,2018-07-11 This hands on approach to teaching digital research skills breaks down each research skill into simple targeted steps that enable students to research more deeply and to accomplish real world tasks Today s rapidly diversifying digital world provides easy access to information making it increasingly important that students know how to conduct research online In this book you ll learn how to transition your instruction of the research process from a print context to a digital one and to expand your own knowledge of how to best assist students at all stages of their research Using six well defined steps that she developed in her 26 years of experience as a school librarian Deb Stanley provides practical strategies for each of the six steps of the research process accompanied by easily used and replicated lessons and handouts that are applicable and adaptable to all grade levels K 12 Step by step instruction links to Common Core state standards and ideas to help students succeed at each stage of the research process makes this title a must have for any school librarian **We, the Data** Wendy H. Wong,2023-10-10 A rallying call for extending human rights beyond our physical selves and why we need to reboot rights in our data intensive world Winner of the 2024 Balsillie Prize for Public Policy Shortlisted 2024 Lionel Gelber Prize Our data intensive world is here to stay but does that come at the cost of our humanity in terms of autonomy community dignity and equality In *We the Data* Wendy H Wong argues that we cannot allow

that to happen Exploring the pervasiveness of data collection and tracking Wong reminds us that we are all stakeholders in this digital world who are currently being left out of the most pressing conversations around technology ethics and policy This book clarifies the nature of datafication and calls for an extension of human rights to recognize how data complicate what it means to safeguard and encourage human potential As we go about our lives we are co creating data through what we do We must embrace that these data are a part of who we are Wong explains even as current policies do not yet reflect the extent to which human experiences have changed This means we are more than mere subjects or sources of data by products that can be harvested and used by technology companies and governments By exploring data rights facial recognition technology our posthumous rights and our need for a right to data literacy Wong has crafted a compelling case for engaging as stakeholders to hold data collectors accountable Just as the Universal Declaration of Human Rights laid the global groundwork for human rights We the Data gives us a foundation upon which we claim human rights in the age of data
