chatgpt: please tell me if there is any improvement for the code:

AI Code Review:

The code seems okay but there is one possible improvement that can be made. The `Size` method is setting the `size` parameter to `s.current` instead of `s.size`. This could be a typo and should be corrected to avoid errors in the future.

The correct implementation should be:

```
func (s *SimpleEarnService) Size(size int64) *SimpleEarnService {  
    s.size = &size  
    return s  
}
```

Another suggestion is to add error handling in case the endpoint is not set correctly in the switch statement. This would ensure that the code handles unexpected cases and returns a meaningful error message.

101 +         if s.size != nil {  
102 +             r.setParam("size", *s.current)
