Neo Liberal Scotland Class And Society In A Stateless Nation:

NeoLiberal Scotland Neil Davidson, Patricia McCafferty, 2009-12-14 Neoliberal Scotland argues that far from passing Scotland by as is so often claimed neoliberalism has in fact become institutionalised there As the mainstream political parties converge on market friendly policies and business interests are equated with the public good the Scottish population has become more and more distanced from the democratic process to the extent that an increasing number now fail to vote in elections This book details for the first time these negative effects of neoliberal policies on Scottish society and takes to task those academics and others who either defend the neoliberal order or refuse to recognise that it exists Neoliberal Scotland represents both an intervention in contemporary debates about the condition of Scotland and a case study of more general interest of how neoliberalism has affected one of the stateless nations of the advanced West Chapter One takes an overview of the origin and rise of neoliberalism in the developed world arguing that it repudiates rather than continues the thought of Adam Smith and the Scottish Enlightenment Part One addresses the fundamental issue of social class in Scotland over three chapters Chapter Two attempts to locate the ruling class both internally and externally Chapter Three explores the changing nature of working class membership and its collective experience Chapter Four follows the working class into the workplace where heightened tensions in the state sector have provoked an increasingly militant response from trade unionists Part Two engages with the broader impact of neoliberalism on Scottish society through a diverse series of studies Chapter Five assesses claims by successive Scottish governments that they have been pursuing environmental justice Chapter Six examines how Glasgow has been reconfigured as a classic example of the neoliberal city Chapter Seven looks at another aspect of Glasgow in this case as the main destination of Eastern European migrants who have arrived in Scotland through the international impact of neoliberal globalisation Chapter Eight investigates the economic intrusion of private capital into the custodial network and the ideological emphasis on punishment as the main objective in sentencing Chapter Nine is concerned with the Scottish manifestations of the happiness industry showing how market fundamentalist notions of individual responsibility now structure even the most seemingly innocuous attempts to resolve supposed attitudinal problems Finally Chapter Ten demonstrates that the limited extent to which devolved Scottish governments particularly the present SNP administration have been able to go beyond the boundaries of neoliberal orthodoxy has been a function of the peculiarities of party competition in Holyrood rather than representing a fundamental disavowal of the existing order

Social Justice and Social Policy in Scotland Gerry Mooney, Gill Scott, 2012 Social justice and social policy in Scotland offers a critical engagement with the state of social policy in Scotland focusing on a diverse range of topics and issues including income inequalities work and welfare criminal justice housing education health and poverty each reflecting the themes of social inequality and social justice *The Political Economy of Hungary* Adam Fabry, 2019-04-03 This book explores the political economy of Hungary from the mid 1970s to the present Widely considered a poster boy of neoliberal

transformation in post communist Eastern Europe until the mid 2000s Hungary has in recent years developed into a model illiberal regime Constitutional checks and balances are non functioning the independent media trade unions and civil society groups are constantly attacked by the authorities there is widespread intolerance against minorities and refugees and the governing FIDESZ party led by Prime Minister Viktor Orb n controls all public institutions and increasingly large parts of the country s economy To make sense of the politico economical roller coaster that Hungary has experienced in the last four decades Fabry employs a Marxian political economy approach emphasising competitive accumulation class struggle both between capital and labour as well as different fractions of capital and uneven and combined development The author analyses the neoliberal transformation of the Hungarian political economy and argues that the drift to authoritarianism under the Orb n regime cannot be explained as a case of Hungarian exceptionalism but rather represents an outcome of the inherent contradictions of the variety of neoliberalism that emerged in Hungary after 1989

Community Co-production Jane Farmer,Carol Hill,Sarah-Anne Muñoz,2012-01-01 Governments around the globe are promoting co production and community social enterprise as policy strategies to address the need for local 21st century service provision but can small communities engage spontaneously in social enterprise and what is the true potential for citizens to produce services This book addresses a clutch of contemporary societal challenges including aging demography and the consequent need for extended care in communities public service provision in an era of retrenching welfare and global financial crises service provision to rural communities that are increasingly hollowed out through lack of working age people and how best to engender the development of community social enterprise organizations capable of providing high quality accessible services It is packed with information and evidence garnered from research into the environment for developing community social enterprise and co producing services how communities react to being asked to co produce what to expect in terms of the social enterprises they can produce and how to make them happen This book is an antidote to the rhetoric of optimistic governments that pronounce co production as a panacea to the challenges of providing local services and by drawing on the evidence from a real life international study will make policymakers more savvy about their aspirations for co production give service professionals practical strategies for working with communities fill a gap in the

academic evidence about community as opposed to individual social enterprise and reassure community members that they can deliver services through community social enterprise if the right partnerships and strategies are in place Community CoProduction will appeal to students and scholars over a broad range of disciplines including development entrepreneurship public and social policy economics and regional studies Story of the Scottish Parliament Hassan Gerry Hassan,2019-07-01 Marking the first twenty years of the Scottish Parliament this collection of essays assesses its impact on Scotland the UK and Europe and compares progress against pre devolution hopes and expectations Bringing together the voices of ministers and advisers leading political scientists and historians commentators journalists and former civil servants it builds an authoritative account of what the Scottish Parliament has made of devolution and an essential guide to the powers Holyrood may need for Scotland to flourish in an increasingly uncertain world **Nation-States** Neil Davidson,2016-05-30 In his latest collection of essays Neil Davidson brings his formidable analytical powers to bear on the concept of the capitalist nation state Through probing inquiry Davidson draws out how nationalist ideology and consciousness is used to bind the subordinate classes to the nation while simultaneously using the state as a means of conducting geopolitical competition for capital *Handbook of Planning Support Science* Stan Geertman,John Stillwell,2020-02-28 Encompassing a broad range of innovative studies on planning support science this timely Handbook examines how the consequences of pressing societal challenges can be addressed using computer based systems Chapters explore the use of new streams of big and open data as well as data from traditional sources offering significant critical insights into the field Towards Social Justice in the Neoliberal Bologna Process Iryna Kushnir,Elizabeth Agbor Eta,2023-01-23 Towards Social Justice in the Neoliberal Bologna Process is essential reading for higher education scholars policymakers and postgraduate students across the EHEA as well as countries beyond the EHEA that have been aligning their systems of education to the Bologna Process **The Battle for the High Street** Phil Hubbard,2017-02-01 This book analyses the social and cultural status of high streets in the age of recession and austerity High streets are shown to have long been regarded as the heart of many communities but have declined to a state where boarded up and vacant retail units are a familiar sight in many British cities The book argues that the policies deemed necessary to revive the fortunes of high streets are often thinly veiled attacks on the tastes and cultures of the working class Policy makers often promote boutiques art galleries and upmarket cafés at the expense of some of the outlets frequented by less affluent populations including betting shops fast food takeaways discount stores and bargain booze outlets Highlighting the social and cultural roles that so called dying high streets continue to play in the lives of working class and disadvantaged populations this book provides a powerful argument against retail gentrification and a timely analysis of class conflict in austerity Britain It will be of great interest to scholars of geography social policy and cultural studies **Holding Fast to an Image of the Past** Neil Davidson,2014-05-05 Davidson explores classic themes in historical materialism as he explains the moments of transition

from the dominance of one mode of production to another the process of social revolution which accompany these transitions and the problem of nationalism both as a theoretical challenge to Marxism's capacity for historical explanation and as a practical obstacle to socialist consciousness The Community Development Reader Craig, Gary, Mayo, Marjorie, 2011-05-18

Handbook of Gentrification Studies Loretta Lees, Martin Phillips, 2018-04-27 It is now over 50 years since the term gentrification was first coined by the British urbanist Ruth Glass in 1964 in which time gentrification studies has become a subject in its own right This Handbook the first ever in gentrification studies is a critical

and authoritative assessment of the field Although the Handbook does not seek to rehearse the classic literature on gentrification from the 1970s to the 1990s in detail it is referred to in the new assessments of the field gathered in this volume The original chapters offer an important dialogue between existing theory and new conceptualisations of gentrification for new times and new places in many cases offering novel empirical evidence [India's Bangladesh Problem](#) Navine Murshid,2023-04-06 An innovative analysis of the experience of Bengali Muslims on the Indian side of the India Bangladesh border [Sport Policy and Politics in an Era of Austerity](#) Dan Parnell,Peter Millward,Paul A. Widdop,Neil King,Anthony May,2019-03-27 Austerity is perhaps the major challenge of our times given the speed at which it arrived and the consequences of its impact upon society The global financial crash and economic downturn was the catalyst for change and against a backdrop of advice from experts adverse to Keynesian economics the ideology of austerity grew and became the dominant thinking to steer economies out of recession This comprehensive volume draws upon both quantitative and qualitative research methodologies to provide a varied and contextually rich insight into sport policy and politics in an era of austerity The authors cover a wide range of issues in a variety of organisational contexts and geographies including sports participation across different socio demographic groups the impact of austerity on the provision of community sports disability sport public management of sport facilities the performance of public sport facilities with respect to access finance utilisation and customer satisfaction the potential impact of austerity on sport for development elite sport and social inclusion and poverty This book makes a significant contribution to the current academic debate while raising important considerations for policymakers and managers It was originally published as a special issue of The International Journal of Sport Policy and Politics **England's Discontents** Mike Wayne,2018-10-20 England s Discontents unpacks the genealogy of British identities over the last two hundred years as they have been shaped by the main political cultures and their interactions with cultural politics Conservatism social liberalism economic liberalism social democracy and socialism in partnership and conflict have forged different models of national belonging and identity Wayne draws on Gramsci s work to reassess debates about Britishness and renew Gramsci s relevance to understanding our contemporary discontents In doing so he reveals that England s enduring attachment to economic liberalism is in danger of eroding all other political cultures even conservatism liberalism and the British state *Urban Land Use* Kimberly Etingoff,2017-01-06 This compendium volume *Urban Land Use Community Based Planning* covers a range of land use planning and community engagement issues Part I explores the connections between land use decisions and consequences for urban residents particularly in the areas of health and health equity The chapters in Part II provide a closer look at community land use planning practice in several case studies Part III offers several practical and innovative tools for integrating community decisions into land use planning
