Immune Systems Giuseppe Nicosia, Vincenzo Cutello, Peter John Bentley, Jonathan Ian Timmis, 2004-08-19. Artificial Immune Systems have come of age. They are no longer an obscure computer science technique

worked on by a couple of farsighted research groups. Today researchers across the globe are working on new computer algorithms inspired by the workings of the immune system. This vigorous field of research investigates how immunobiology can assist our technology and along the way is beginning to help biologists understand their unique problems. AIS is now old enough to

understand its roots its context in the research community and its exciting future It has grown too big to be confined to special sessions in evolutionary computation conferences AIS researchers are now forming their own community and identity The International Conference on Artificial Immune Systems is proud to be the premiere conference in the area As its organizers we were honored to have such a variety of innovative and original scientific papers presented this year ICARIS 2004 was the third international conference dedicated entirely to the field of Artificial Immune Systems AIS It was held in Catania on the beautiful island of Sicily Italy during September 13-16 2004 While hosting the conference the city of Catania gave the participants the opportunity to enjoy the richness of its historical and cultural atmosphere and the beauty of its natural resources the sea and the Etna volcano
