Börsenblatt, 2005-05 **Tate: Brief Lessons in Rule Breaking** Frances Ambler, 2019-04-04 Learn the rules like a pro so you can break them like an artist. Picasso. Whether it's through disrupting a routine, turning an idea on its head, or challenging the norm, Brief Lessons in Rule Breaking will give you the confidence to take creative risks and experiment free from self-doubt. Be inspired by the artistic avant-garde with wise words from Abramovic, Duchamp, and more. **The Beauty Bias** Deborah L. Rhode, 2010-05-06 It hurts to be beautiful has been a cliché for centuries. What has been far less appreciated is how much it hurts not to be beautiful. The Beauty Bias explores our cultural preoccupation with attractiveness, the costs it imposes, and the responses it demands. Beauty may be only skin-deep, but the damages associated with its absence go much deeper. Unattractive individuals are less likely to be hired and promoted and are assumed less likely to have desirable traits such as goodness, kindness, and honesty. Three quarters of

women consider appearance important to their self image and over a third rank it as the most important factor Although appearance can be a significant source of pleasure its price can also be excessive not only in time and money but also in physical and psychological health Our annual global investment in appearance totals close to 200 billion Many individuals experience stigma discrimination and related difficulties such as eating disorders depression and risky dieting and cosmetic procedures Women bear a vastly disproportionate share of these costs in part because they face standards more exacting than those for men and pay greater penalties for falling short The Beauty Bias explores the social biological market and media forces that have contributed to appearance related problems as well as feminism s difficulties in confronting them The book also reviews why it matters Appearance related bias infringes fundamental rights compromises merit principles reinforces debilitating stereotypes and compounds the disadvantages of race class and gender Yet only one state and a half dozen localities explicitly prohibit such discrimination The Beauty Bias provides the first systematic survey of how appearance laws work in practice and a compelling argument for extending their reach The book offers case histories of invidious discrimination and a plausible legal and political strategy for addressing them Our prejudices run deep but we can do far more to promote realistic and healthy images of attractiveness and to reduce the price of their pursuit

The Bookshop of the World Andrew Pettegree,Arthur der Weduwen,2019-01-01 The untold story of how the Dutch conquered the European book market and became the world s greatest bibliophiles an instant classic on Dutch book history BMGN Low Countries Historical Review An excellent contribution to book history Robert Darnton New York Review of Books The Dutch Golden Age has long been seen as the age of Rembrandt and Vermeer whose paintings captured the public imagination and came to represent the marvel that was the Dutch Republic Yet there is another largely overlooked marvel in the Dutch world of the seventeenth century books In this fascinating account Andrew Pettegree and Arthur der Weduwen show how the Dutch produced many more books than pictures and bought and owned more books per capita than any other part of Europe Key innovations in marketing book auctions and newspaper advertising brought stability to a market where elsewhere publishers faced bankruptcy and created a population uniquely well informed and politically engaged This book tells for the first time the remarkable story of the Dutch conquest of the European book world and shows the true extent to which these pious prosperous quarrelsome and generous people were shaped by what they read

Epd film ,1996 **Confessional Video Art and Subjectivity** Jaye Early,2025-01-23 This is the first book of its kind to examine the development of the confessional

subject in video art and demonstrate how it can provide a vital platform for navigating the politics of self subjectivity and resistance in society In doing so it reframes video art the most ubiquitous and yet most understudied art form of recent decades as an urgent socio political tool that is increasingly popular among contemporary artists as a means of exploring a broad range of social issues from politics and identity to the body and technologies of self representation Analysing a diverse selection of case studies from the 1960s up to the present day covering the work of Yoko Ono Gillian Wearing Ryan Trecartin Tracey Emin Anatasia Klose and Heath Franco among others the book brings together theory and practice to look afresh at contemporary video art through a Foucauldian lens It also brings the analysis of video art up to date by showing how social media and digital self representation has informed and further politicized time based art practices Confessional Video Art and Subjectivity shows how forms of confessional discourse not only play an important function in the construction of subjectivity but also open spaces for personal resistance and agency within contemporary video art As a result it offers researchers of contemporary art practice and media and cultural studies an updated framework through which to view this constantly evolving genre and a deeper understanding of wider contemporary video practices
