Bachtiar, Fifik Wiryani, Hikmahanto Juwana, Sonny Zuhuda, Muhammad Fauzan, 2025-02-27 This book is an open access Law is a set of rules made to foster regularity and guarantee safety and certainty for citizens The existence of Law is intended to maintain social order and control societal changes into something as expected Both law and humanity are inextricable and they work in harmony Therefore the formulation and enforcement must take place simultaneously This view is relevant to the idea of Prof Satjipto Raharjo in his progressive legal theory believing that law is born for human beings not the other way around In other words the law should keep moving to maintain the people s welfare and to ensure that the certainty justice and utility of the law are guaranteed Recently the world has been faced with seemingly unstoppable humanitarian crises Prolonged conflict has caused severe losses affecting physical economic and psychological conditions and no diplomatic and repressive actions have managed to stop this issue In such a situation the law should play its role in protecting those affected by this inhuman conflict However international and national laws seem to be left as nothing but mere meaningless written rules that fail to address this existing problem In such a situation humanity is being disrupted which it sees a change of meaning triggering a critical situation and blurring it This situation also indicates that these days humanity is facing challenges Departing from this perspective the Faculty of Law Universitas Muhammadiyah Malang holds the 5th International Conference of Law and Call for Papers with the Theme Redefining Humanity Values as the Basis of Legal Reasoning Challenges in the Disruption Era From this conference we expect to welcome more ideas of redefining the significance of humanity toward the law in the existing challenges *Studyguide for New Perspectives on Computer*
